

Proceedings
of the
FLORIDA STATE
Horticultural Society
1964

VOLUME LXXVII

PRINTED 1965

CONTENTS

Officers for 1964	IV
Officers for 1965	V
Constitution and By-Laws	VI
Awards for Outstanding Papers	XVIII
List of Presidents	XVIII
Honorary Members	XIX
Award of Honorary Memberships	XX
President's Annual Address, Willard M. Fifield, Gainesville	XXV
The Ever-Expanding Horizons for Plant Research, Dr. George L. McNew, Director, Boyce Thompson Institute for Plant Research, Yonkers, New York	XXVIII

CITRUS SECTION

Effects from Zineb Applications to the Root Zone of Citrus Seedlings, J. R. Iley, Everglades Experiment Station, Belle Glade, and J. G. A. Fiskell, Florida Agricultural Experiment Station, Gainesville	1
Effect of Atmospheric Fluorides Upon Certain Metabolic Processes in Valencia Orange Leaves, S. S. Woltz, Gulf Coast Experiment Station, Bradenton, and C. D. Leonard, Citrus Experiment Station, Lake Alfred	9
The Influence of Hydrocarbons on Photosynthesis of Citrus Leaves, R. T. McMillan, Jr. and J. M. Riedhart, University of Miami, Coral Gables	15
Changes in Soil Composition During Twenty Years of Differential Phosphate Application, Paul F. Smith, G. Hrciar and G. K. Scudder, Jr., U.S.D.A. Agricultural Research Service, Orlando	21
Some Results of Fairfield Slag, R. C. J. Koo, Florida Citrus Experiment Station, Lake Alfred	26

Effects of Arsenic on the Growth of Pineapple Orange Seedlings in Sand and Solution Nutrient Cultures, G. K. Rasmussen and W. H. Henry, U.S.D.A. Agricultural Research Service, Orlando	32
Effects of Rate and Frequency of Fertilizer Applications on Yield and Quality of Valencia Oranges in the Indian River Area, David V. Calvert, Florida Indian River Field Laboratory, Fort Pierce, and Herman J. Reitz, Citrus Experiment Station, Lake Alfred	36
The Effect of Rootstock, Soil Type, and Soil pH on Citrus Root Growth in Soils Subject Flooding, Harry W. Ford, Florida Citrus Experiment Station, Lake Alfred	41
Foot Rot in Young Groves, Mortimer Cohen, Indian River Field Laboratory, Fort Pierce, Gordon R. Grimm, U.S.D.A. Horticultural Field Station, Orlando, and Fred W. Bistline, Minute Maid Groves Corp., Orlando	45
Barriers for Spreading Decline Control, R. F. Suit and A. W. Feldman, Florida Citrus Experiment Station, Lake Alfred	52
Burrowing Nematode Progress Report, Charles Poucher, Division of Plant Industry, Florida Department of Agriculture, Winter Haven	56
Stimulative and Nematocidal Effects of Ethion on Citrus Seedlings Parasitized by the Burrowing Nematode, A. C. Tarjan, Florida Citrus Experiment Station, Lake Alfred, and W. M. Wouts, Agricultural University of Wageningen, The Netherlands	60
Control of Citrus Snow Scale, <i>Unaspis Citri</i> (Comst.), in Florida, R. F. Brooks, Florida Citrus Experiment Station, Lake Alfred	66
Brown Soft Scale in Texas, Rex B. Reinking, Texas College of Arts & Industries, Citrus Center, Weslaco, Texas	70
Old and Nucellar Lines in the Foundation Grove of the Division of Plant Industry, G. G. Norman, Division of Plant Industry, Florida Department of Agriculture, Winter Haven	71
The Breeding Behavior of the 'Clementine' Tangerine, Philip C. Reese and C. Jack Hearn, U.S.D.A. Crops Research Division, Orlando	76
Citrus Breeding and Bud Selection in Japan, Masao Nishiura, Ministry of Agriculture and Forestry, Okitsu, Japan	79
Effect of Napthaleneacetic Acid Spray and Hand Thinning on Size of Kinnow Mandarin Fruit in Arizona, R. H. Hilgeman, L. True, and J. H. Dunlap, University of Arizona, Tempe, Arizona	84
Grove Heating: Some Thermodynamic Considerations, W. Grierson, Florida Citrus Experiment Station, Lake Alfred	87
The Use of Heating Devices for Cold Protection, J. F. Gerber, University of Florida, Gainesville	93
Diurnal and Seasonal Fluctuations of Trunk Growth of the Valencia Orange as Related to Climate, W. C. Cooper, G. K. Rasmussen, U.S.D.A. Agricultural Research Service, Orlando, and R. H. Hilgeman, University of Arizona, Tempe, Arizona	101
Detection of Tatter Leaf Virus of Citrus in Florida, Stephen M. Garnsey, U.S.D.A. Agricultural Research Service, Orlando	106
Nova Tangelo—An Early Ripening Hybrid, P. C. Reece, C. J. Hearn, and F. E. Gardner, U.S.D.A. Agricultural Research Service, Orlando	109

Increased Utilization of Oranges Through Improvement in Quality of Processed Products, F. W. Wenzel, Florida Citrus Experiment Station, Lake Alfred, and E. L. Moore, Florida Citrus Commission, Lake Alfred	110
--	-----

VEGETABLE SECTION

Impact of Sugar Cane Expansion on Vegetable Production in the Everglades, John H. Causey, Associate County Agricultural Agent, Palm Beach County, Belle Glade	119
A Comparison of "String Trellising" Versus the Conventional Tying Methods of Supporting Staked Tomato, David G. A. Kelbert, Gulf Coast Experiment Station, Bradenton	120
Influence of Row and Broadcast Fertilization on the Growth and Nutrient Status of Southern Grown Tomato Transplants, William S. Murphy, Joseph Campbell Co., Cairo, Georgia	122
Cucumber Variety Trials on the Sandy Soils of the Lower East Coast, Henry Y. Ozaki, Plantation Field Laboratory, Ft. Lauderdale	128
Prepackaging Pole Beans at Grower Level, B. D. Thompson, Agricultural Experiment Station, Gainesville	131
Homogeneity of Sized Celery in Florida, D. D. Gull, University of Florida, Gainesville ..	137
Sweet Corn Variety Trials at Zellwood, P. J. Westgate, R. B. Forbes, J. F. Darby, Central Florida Experiment Station, Sanford	143
Soil Temperature Effect on Germination of Celery Seed, V. L. Guzman, Everglades Experiment Station, Belle Glade	147
Comparison of Two Planters for Sweet Corn, V. L. Guzman and W. H. Kahl, Everglades Experiment Station, Belle Glade	152
Ripening of Three Varieties of Tomatoes as Influenced by Age of Fruit, Pre-Ripening Temperature and Position on the Plant, B. D. Thompson, D. D. Gull, and L. H. Halsey, Agricultural Experiment Station, Gainesville	156
Variations in the Time To Reach the Turning-Color Stage of Some Tomato Varieties and Lines Harvested at the Mature-Green Stage, C. B. Hall Agricultural Experiment Station, Gainesville, and J. M. Walter, Gulf Coast Experiment Station, Bradenton	163
Tomato Fertility Trials on Sandy Soils, N. C. Hayslip, Indian River Field Laboratory, Fort Pierce, J. R. Iley, Everglades Experiment Station, Belle Glade	168
Effects of Nitrogen Source, Phosphorus Fertilization, and Lime in Leon Fine Sand on Growth and Chemical Composition of Tomato Plants, Charles C. Hortenstine, University of Florida, Gainesville	172
Tomato Seed Germination and Plant Growth in Relation to Soil Temperatures and Phosphorus Levels, C. A. Jaworski, U.S.D.A., Tifton, Georgia, and V. J. Valli, U.S. Weather Bureau, Tifton, Georgia	177
Effect of Nitrogenous Materials On Yield and Quality of Tomatoes, C. M. Geraldson, Gulf Coast Experiment Station, Bradenton	184

Response of Collards to Nitrogen, Phosphorus and Potassium Fertilization, Paul Sutton, Strawberry and Vegetable Field Laboratory, Dover	186
Copper as a Factor in Watermelon Fertilization, S. J. Locascio, Florida Agricultural Experiment Station, Gainesville, P. H. Everett, South Florida Field Laboratory, Immokalee, and J. G. A. Fiskell, Florida Agricultural Experiment Station, Gainesville	190
Effects of Fertilizer Placement, Organic Nitrogen and Time of Mulching on Strawberry Yield, S. J. Locascio, Florida Agricultural Experiment Station, Gainesville	194
Response of Vegetables Grown in the Quincy Area on Norfolk Loamy Fine Sand to Fertilizer and Soil Amendments, W. K. Robertson, Florida Agricultural Experiment Station, Gainesville, and H. W. Young, Big Bend Horticultural Laboratory, Monticello	198
Influence of Chemical Deflowering and Defruiting on the Vegetative Growth and Fruit Set of Bell Peppers (<i>Capsicum annum</i> L.), Kirti Singh, Jammu & Kashmir Government, Srinagar, India, and Victor F. Nettles, Florida Agricultural Experiment Station, Gainesville	204
Southern Potato Wireworm Control at Hastings, Florida, R. B. Workman, Potato Investigations Laboratory, Hastings	210
Insecticide Combinations for Insect Control on Sweet Corn, Emmett D. Harris, Jr., Everglades Experiment Station, Belle Glade	212
Systemic Insecticides for Control of Insects Attacking Potatoes, R. M. Baranowski, Sub-Tropical Experiment Station, Homestead	219
The Effect of Soil Applications of Six Chlorinated Hydrocarbon Insecticides on Vegetable Crops and Soil Microorganisms, C. F. Eno, Jr., J. W. Wilson, Florida Agricultural Experiment Station, Gainesville, R. D. Chisholm, and L. Koblitsky, USDA, ARS, Beltsville, Md.	223
Some Vegetable Responses to Chlorophenoxy Herbicide Exposure, J. R. Orsenigo, Everglades Experiment Station, Belle Glade	230
Effect of <i>Crotalaria Spectabilis</i> and <i>Sesbania Exaltata</i> on Plant Nematode Populations Subsequent Yield of Snap beans and Cabbage, H. L. Rhoades, Central Florida Experiment Station, Sanford	233
Factors in Reduction of <i>Botrytis Cinerea</i> Pers. Ex. Fr. Incidence on Tomato by Liming Practices, R. E. Stall, University of Florida, Gainesville, C. C. Hortenstine, University of Florida, Gainesville, and J. R. Iley, Everglades Experiment Station, Belle Glade	237
Fungicidal Control of <i>Botrytis Cinerea</i> Pers. Ex Fr. on Tomato, R. E. Stall, Agricultural Experiment Station, Gainesville	242
Shoulder Pox, a New Disease on Tomato Fruit, R. S. Cox, Crop Production Consultant, Lake Worth	244
Blotchy Ripening Symptoms of Tomatoes and Procedures for Rating, P. A. Minges, and Sidki Sadik, Cornell University, Ithaca, New York	246
Compatibility of Several Fungicides and Insecticides on Pepper, John Paul Jones and E. G. Kelsheimer, Gulf Coast Experiment Station, Bradenton	248

HANDLING AND PROCESSING SECTION

The Ripening Response of Detached Tomato Fruits to Daily Exposures to High Temperatures, C. B. Hall, Florida Agricultural Experiment Station, Gainesville	252
Ear Size and Weight Characteristics of Florida Sweet Corn, R. K. Showalter, Florida Agricultural Experiment Station, Gainesville	256
Studies of Southern Pea Lipoxidase, F. W. Knapp, Florida Agricultural Experiment Station, Gainesville	262
Decay Control of Florida Citrus with 2-Aminobutane, A. A. McCornack and E. F. Hopkins, Florida Citrus Experiment Station, Lake Alfred	267
Evaluation of Pectin in Component Parts of Pineapple Oranges During Maturation, A. H. Rouse, Florida Citrus Experiment Station, Lake Alfred, C. D. Atkins and E. L. Moore, Florida Citrus Commission, Lake Alfred	271
Evaluation of Pectin in Component Parts of Silver Cluster Grapefruit During Maturation, A. H. Rouse, Florida Citrus Experiment Station, Lake Alfred, and E. L. Moore and C. D. Atkins, Florida Citrus Commission, Lake Alfred	274
The Degrees Brix & Brix-Acid Ratios of Oranges Utilized by Florida Citrus Processors for the Seasons 1958-59 through 1963-64, G. F. Westbrook and E. C. Stenstrom, Division of Fruit & Vegetable Inspection, State Department of Agriculture, Winter Haven	278
Cannery Waste Disposal, Austin T. Rhoads, National Canners Association, Washington, D. C.	284
The Taste of Citrus Juice: IV. Imitations and Drinks, R. W. Kilburn, Florida Citrus Canners Cooperative, Lake Wales	286
Chlorination of Fruit Conveying Systems in a Citrus Concentrate Plant, J. F. Folinazzo, Continental Can Company, Inc., Chicago, Illinois, D. I. Murdock, Minute Maid Company, Plymouth, W. P. Segner and D. T. Maunder, Continental Can Company, Inc., Chicago, Illinois	288
Microbiological and Storage Study of Chilled Orange Juice, Roger Patrick, Florida Citrus Experiment Station and E. C. Hill, Florida Citrus Commission, Lake Alfred	293
Detection of Diacetyl and Acetylmethylcarbinol in Processing Frozen Concentrated Orange Juice—A Preliminary Report, D. I. Murdock and R. E. Dennis, Minute Maid Company, Orlando	297
Use of Gas-Liquid and Thin Layer Chromatographic Techniques in Orange Essence Analysis, John A. Attaway, Donald V. Hendrick, and Richard W. Wolford, Florida Citrus Commission, Lake Alfred	305
Comparison of Orange Concentrate and Foam-Mat Powders Using Chromatographic Procedures, J. H. Tatum, G. L. Parks and R. E. Berry, U.S. Fruit & Vegetable Products Laboratory, Winter Haven	307
Bulk Density and Reconstitution Rates of Foam-Mat Dried Citrus Powders, Charles J. Wagner, Jr., O. W. Bissett and Robert E. Berry, U.S. Fruit & Vegetable Products Laboratory, Winter Haven	311
Some Factors Affecting the Level and Persistence of Diphenyl Residues in Citrus Fruits, F. W. Hayward and G. J. Edwards, Florida Citrus Experiment Station, Lake Alfred	315

Phenolic Amines in Citrus Juice, Ivan Stewart and T. A. Wheaton, Florida Citrus Experiment Station, Lake Alfred	318
Debittering of Concentrated Grapefruit Juice with Naringinase, R. W. Olsen, Florida Citrus Experiment Station, and E. C. Hill, Florida Citrus Commission, Lake Alfred	321
How Accurate is the Grading of Incoming Fruit for Culls?, W. J. Hepburn and W. J. Arey, Minute Maid Company, Orlando	326
Price and Income Elasticities: Their Importance to Growers, Processors and Retailers, Roy G. Stout, Minute Maid Company, Orlando, and Wilson B. Riggan, U. S. Health Department, Cincinnati, Ohio	333
Prices and Factors Affecting Price Behavior at Various Marketing Sectors for Florida Oranges, Wilson B. Riggan, U. S. Health Department, Cincinnati, Ohio, and Roy G. Stout, Minute Maid Company, Orlando	338
Canned Grapefruit Sections and Canned Citrus Salad, as Affected in Final Drained Weight and Quality By Variations in Raw Fruit Brix During Three Packing Seasons, Robert D. Carter, Cypress Gardens Citrus Products, Inc., Winter Haven	342
Seed Oils from Florida Mandarins and Related Varieties, Rudolph Hendrickson and J. W. Kesterson, Florida Citrus Experiment Station, Lake Alfred	347
Handling and Shipping Aspects of Newer Packaging Materials, A. A. Kopetz and C. E. Scruggs, American Can Company, Maywood, Illinois and Tampa	351

KROME MEMORIAL SECTION

Two New Fruits for Cultivation in South Florida, Carl W. Campbell, Sub-Tropical Experiment Station, Homestead	356
Rooting Avocado Cuttings, F. J. Leal and A. H. Krezdorn, University of Florida, Gainesville	358
Tropical Fruits on the Flatwoods, M. U. Mounts, County Agricultural Agent, West Palm Beach	363
Notes on Brazos Blackberries in the Indian River Area, Norman C. Hayslip, Indian River Field Laboratory, Fort Pierce	365
Effect of Low Temperature on Terminating Bud-Dormancy of 'Okinawa,' 'Flordawon,' 'Flordahome,' and 'Nemaguard' Peaches, R. J. Gurdian, San Jose, Costa Rica, and R. H. Biggs, University of Florida, Gainesville	370
Topography, Rootstocks, Varieties and Tree Size as Factors in the Reaction of Mango Trees to Low Temperatures, Chanan Oppenheimer, Volcani Institute of Agricultural Research, Rehovot, Israel	379
Effect of Nursery Stock Size on Peach Yields, Nathan Gammon, Jr. and J. S. Shoemaker, Florida Agricultural Experiment Station, Gainesville	384
Rare Fruit Council Activities 1963-64, Wm. F. Whitman, Rare Fruit Council, Bal Harbour, and Joseph P. Biebel, Rare Fruit Council, S. Miami	387

Temperature Hazards to Peaches in Florida, K. D. Butson, U. S. Weather Bureau, Gainesville, and J. F. Gerber Department of Fruit Crops, University of Florida, Gainesville	395
Avocado Nutrition in California, Tom W. Embleton and W. W. Jones, Department of Horticultural Science, University of California, Riverside, California	401
Influence of Nitrogen Source and Rate of Fertilization on Performance of Brewster Lychees, T. W. Young, Sub-Tropical Experiment Station, Homestead, and R. C. J. Koo, Florida Citrus Experiment Station, Lake Alfred	406
Parasitism of Six Nematode Species on <i>Camellia sinensis</i> , H. V. Morton, Department of Entomology, University of Florida, Gainesville	410
Honeybee Plants of South Florida, Julia F. Morton, University of Miami, Coral Gables	415
The Effect of Radiation on Mold Populations on Fresh Lychees, M. S. Kramer and G. D. Kuhn, Florida Agricultural Experiment Station, Gainesville	436
Phytophthora Root and Stem Rot of Aloe, C. W. Averre, III and J. E. Reynolds, Sub-Tropical Experiment Station, Homestead	438
Distortion Ringspot, a Severe Virus Disease of Papaya in Florida, Robert A. Conover, Sub-Tropical Experiment Station, Homestead	440
Mild Mosaic and Faint Mottle Ringspot, Two Papaya Virus Diseases of Minor Importance in Florida, Robert A. Conover, Sub-Tropical Experiment Station, Homestead	444
The Effect of Calcium on Peach Root Development, A. A. Powell, Assistant County Agricultural Agent, A. H. Krezdorn, Department of Fruit Crops, and N. Gammon, Jr., Department of Soils, University of Florida, Gainesville	449

ORNAMENTAL SECTION

Effect of Nematicides on Roses, A. J. Overman, Gulf Coast Experiment Station, Bradenton	453
Rejuvenation of Nematized Centipedegrass Turf with Chemical Drenches, A. C. Tarjan, Citrus Experiment Station, Lake Alfred	456
Cercospora Leafspotting Fungi that Attack Orchids in Florida, Harry C. Burnett, Division of Plant Industry, Florida Department of Agriculture, Winter Haven	461
Influence of Chemical Preservatives on Keeping Quality of Asters, Carnations, Chrysanthemums, and Gerbera Daisies, W. E. Waters, Gulf Coast Experiment Station, Bradenton	466
Influence of Nitrogen and Potassium Nutrition on Production, Keeping-Quality and Chemical Composition of the Miniature Carnation, W. E. Waters, Gulf Coast Experiment Station, Bradenton	471
Effect of Nitrogen and Potassium Nutrition on the Phytophthora Leaf Spot of <i>Philodendron Oxycardium</i> , Roy W. Harkness, Sub-Tropical Experiment Station, Homestead, and J. E. Reynolds, Grays Harbor College, Aberdeen, Washington	475

Some Tetranychid Mites on Florida Ornamental Crops, and Laboratory Studies of their Susceptibility to Miticides, S. H. Kerr, Department of Entomology, Florida Agricultural Experiment Station, Gainesville	481
Disease-Free Production of Foliage Plants, A. P. Martinez, Division of Plant Industry, Florida Department of Agriculture, Gainesville	484
Cercospora Diseases of Ligustrum, E. K. Sobers, Division of Plant Industry, Florida Department of Agriculture, Gainesville	486
A Leafspot of Senecio Confusus Caused by Alternaria Senecionis, E. K. Sobers, Division of Plant Industry, Florida Department of Agriculture, Gainesville	490
Marketing Channels for Florida Commercial Turf Grasses, Cecil N. Smith and Robert H. Brewster, University of Florida, Gainesville	495
Opinions and Practices of Lending Agencies and Real Estate Operators Toward Nursery Landscaping, Cecil N. Smith, University of Florida, Gainesville	498
The Winter Sweet, <i>Acokanthera Spectabilis</i> , A Fine Ornamental for South Florida, Eric V. Golby, Reasoner's Tropical Nurseries, Inc., Bradenton	502
Improper Diagnosis of Law Problems, Gilbert Marshall Whitton, Jr., Pinellas County Agent, Largo	503
Some Symptoms of Malnutrition in Roses, J. R. Iley, Everglades Experiment Station, Belle Glade, and T. W. Young, Sub-Tropical Experiment Station, Homestead ...	505
Translocation and Metabolic Effects of Fluorides in <i>Gladiolus</i> Leaves, S. S. Woltz, Gulf Coast Experiment Station, Bradenton	511
Distinctive Effects of Root Versus Leaf Acquired Fluorides, S. S. Woltz, Gulf Coast Experiment Station, Bradenton	516
Present Status of Tissue Analyses in Diagnosing Fertilizer Needs of <i>Chrysanthemum Morifolium</i> , Jasper N. Joiner, University of Florida, Gainesville	517
Effects of Watering Frequencies and Dwarfing Chemicals on Growth, Flowering and Chemical Composition of <i>Lilium Longiflorum</i> 'Georgia', T. J. Sheehan and Jasper N. Joiner, University of Florida, Gainesville	520
The Growth and Biochemical Responses of 'Barbara Ecke Supreme' Poinsettias to Nitrogen and Growth Retardants, Jasper N. Joiner and T. J. Sheehan, University of Florida, Gainesville	523
Effects of Varying Levels of Nitrogen and Potassium on Cold Hardiness of 'George Tabor' Azaleas, Jasper N. Joiner and E. R. Ellis, Jr., University of Florida, Gainesville	525
Effect of Certain Cultural Factors on Growth and Chemical Composition of Rhododendron Indicum 'Formosa', R. D. Dickey, R. T. Poole, and Jasper N. Joiner, University of Florida, Gainesville	528
A Simple Liquid-Culture Method of Growing Plants, Alan D. Conger, University of Florida, Gainesville	536
Close-up Photography of Horticulture Subjects, Lewis Samuel Maxwell, Florida Garden Guide, Tampa	537

The Effect of Phosfon and Gibberellic Acid on the Growth and Chemical Composition of <i>Chrysanthemum Morifolium</i> 'Blue Chip', John F. Cabler, University of Florida, Gainesville	543
Post-Harvest Fungicides to Control Fusarium Disease of Gladiolus, Robert O. Magie, Gulf Coast Experiment Station, Bradenton	549
Pre-Emergence Weed Control and Phytotoxicity in Field Grown Woody Ornamental Plants, Charles A. Conover, University of Florida, Gainesville	551

ANNUAL REPORTS

Necrology	557
Report of Florida Agricultural Council	560
Report of Executive Committee	560
Annual Business Meeting	561
Resolutions	561
Report of Membership Committee	561
Report of Treasurer	562
List of Members	563
Index	577
