**CITRUS SECTION**

The Effect of Budwood, Rootstock, Irrigation, and Fertilization on the Yield of Florida Lemon Oil, J. W. Kesterson, R. J. Braddock, and R. C. J. Koo .................. 6

Evaluation of Fungicides for Citrus Scab Control, J. O. Whiteside .......... 9

Distributional Patterns of Selected Herbicide Applicators, J. L. Jackson, Jr. .......... 14

Toxicity of Selected Insecticides to the Citron Bug, Leptoglossus gonagra (F.), a Minor Pest of Florida Citrus, R. C. Bullock .................. 17

A Possible Sprout Inhibitor for Florida Citrus, Ernest C. Lundberg and Thomas S. Smith .......... 20

VEGETABLE SECTION

Pruning Determinate Tomato Plants Will Increase Dollar Return, D. S. Burgis and R. A. Levins .................................................. 122

The Eradication of Two Potentially Dangerous Rusts, Physopella pallescens and P. zeae From Florida, C. P. Seymour and J. W. Miller .................................................. 124

Tomato Response to Plug-Mix, Mulch and Irrigation Method, S. J. Locascio and J. Mostella Myers .................................................. 126

Influence of Weather on Diseases of Vegetable Crops in Southwest Florida, C. H. Blazquez .................................................. 130

Performance of Pumpkin Varieties at Quincy, Florida During 1971 and 1972, G. L. Greene .................................................. 136

The IFAS Semi-Mechanical Fresh Market Tomato Harvester, Norman C. Hayslip and W. W. Deen, Jr. .................................................. 139

Expanded Agricultural Weather Service for Alabama, Florida and Georgia, Ray E. Jensen and D. R. Davis .................................................. 144

Weather Forecast and Advisory Service for Agriculture in the Southeast, D. R. Davis and Ray E. Jensen .................................................. 149

The Nitrogen Shortage: Implications for Florida Pepper Production, Jean Ongla, Chris O. Andrew and George Perkins .................................................. 155

Yield Responses of Tomatoes and Second Cropped Butternut Squash to Fertilizer Rate and Placement Under Plastic Mulch on Rockdale Soil, Herbert H. Bryan and J. D. Dalton .................................................. 159

Selective Application of Insecticides for Sustained Fruit Yield of Tomato, Sidney L. Poe .................................................. 165

Chemical Weed Control in North Florida Cabbage, J. R. Shumaker .................................................. 170

Response of Carrot to Post Emergence-Applied Herbicide-Surfactant Combinations, J. R. Orsenigo .................................................. 174

Evaluation of Herbicides for Watermelon in Florida, G. W. Elmstrom and S. J. Locascio .................................................. 179

Severity of Bacterial Rind Necrosis in Watermelon Cultivars in Florida, D. L. Hopkins and G. W. Elmstrom .................................................. 184

Effect of Planting Date, Plant Chilling and Plant Sources on ‘Tioga’ Strawberry Growth and Fruiting Response, E. E. Albrechts and C. M. Howard .................................................. 187

Crop Response to Drainage in The Flatwoods, J. S. Rogers and D. S. Harrison .................................................. 193

Potential Role for Technology to Enhance Florida Competition With Imports of Cucumbers in 1980, Teunis DeBoon and Chris O. Andrew .................................................. 196
Results of Treating Freshly Cut Seed Potatoes With Fungicides and Antibiotics, D. P. Weingartner and J. R. Shumaker ........................................ 201

HANDLING AND PROCESSING SECTION

Estimation of Ascorbic Acid in Orange Juice by a Chronometric Method, Bongwoo Roe and Joseph H. Bruemmer ........................................ 210

β-Carotene and Ascorbic Acid Contents of Tomatoes as Affected by Maturity, R. F. Matthews, Pat Crill and S. J. Locascio ........................................ 214

Degreening of Florida Lemons, Otto L. Jahn ........................................ 218

Biochemical Changes in Grapefruit Stored in Air Containing Ethylene, Paul L. Davis, Bongwoo Roe and Joseph H. Bruemmer ........................................ 222

Influence of Initial Carbon Dioxide Exposure on Stored Early-, Mid- and Late-Season 'Marsh' Grapefruit, T. T. Hatton, Jr. and R. H. Cubbedge ........................................ 227

Control of Citrus Fruit Decay With Postharvest Application of Benlate, A. A. McCormack ........................................ 230

Decay Control of Oranges With Benomyl by Three Methods of Postharvest Application, John J. Smoot and C. F. Melvin ........................................ 234

Postharvest Citrus Decay as Affected by Benlate Applications in the Grove, G. Eldon Brown ........................................ 237

A Flood-Recovery TBZ Fungicide Treatment System for Citrus Fruits, W. F. Wardowski, F. W. Hayward and J. D. Dennis ........................................ 241

Reducing Sodium o-Phenylphenate Level in Simulated Packinghouse Effluent With Activated Carbon, Mohamed A. Ismail and W. F. Wardowski ........................................ 243

High-Temperature—Short-Time Processing of Carrot Juice, R. P. Bates and J. A. Koburger ........................................ 245

Effect of Waxing on Decay, Weight Loss, and Volatile Pattern of Cucumbers, R. H. Segall, Alice Dow and Paul L. Davis ........................................ 250

Mechanical Harvesting and Trimming of Sweet Corn, R. K. Showalter ........................................ 252

Fruit Evaluation of Twelve Tetraploid Blueberry Selections, F. W. Knapp, W. B. Sherman, R. H. Sharpe and R. C. Littell ........................................ 255

Consumer Acceptance Testing of Processed Florida Blueberries, F. W. Knapp and W. B. Sherman ........................................ 260

Bulk Shipments of Washed and Unwashed Potatoes to Chip Processors—Comparison of Usable Weight and Cost, Earl K. Bowman and Dale R. Hensel ........................................ 265

Keeping Quality of Diced Mango-Orange Juice Salad Gels, A. H. Rouse, C. R. Barmore and E. L. Moore ........................................ 272
Growth of Microorganisms in Chilled Orange Juice, D. I. Murdock and W. S. Hatcher, Jr. .......................................................... 274
Effects of UV-B Radiation on Pigment Changes and Quality of Citrus Fruits, Fouad M. Basiouny and R. H. Biggs ........................................ 281
Using the FCOJ Futures Market to Reduce Price Uncertainty, James A. Niles and Ronald W. Ward ................................................. 289
Viscometric Measurements and Pectic Content of Frozen Concentrated Orange Juices for Citrus Futures, A. H. Rouse, L. G. Albrigo, H. L. Huggart and E. L. Moore .............................................. 293
Rheological Characteristics and Quality Factors of Florida Frozen Concentrated Orange Juice, R. L. Huggart, R. W. Barron and B. S. Buslig ............................................ 297
Particle Size Distribution in Orange Juices, Béla S. Buslig and Robert D. Carter .......................................................... 302
Analysis of Concentrated Orange Essence and Comparison With Known Essence Composition, Philip E. Shaw and Manuel G. Moshonas .............................................. 305
Use of Enzymes to Increase Yield of Orange Juice Pulp-Wash Solids, R. J. Braddock and J. W. Kesterson ............................................. 310
Mechanical Grading of Oranges Based on Dynamic Behavior, William L. Bryan, Barry J. Anderson and Gary L. Norman ............................................. 313
Rate of Color Break of Tomatoes as Influenced by Preharvest Low-Level Applications of Ethephon, J. R. Hicks, H. H. Bryan and C. B. Hall ........................................... 319
Extension of Storage Life of Citrus Fruits by Application of Candelilla Wax Emulsion and Comparison of its Efficiency With Tag and Flavorseal, S. Lakshminarayana, Luis Sarm J., Isabel Ortiz R., and Gabriel Siade ........................................... 325
KROME MEMORIAL INSTITUTE

Ripening Mangos With Ethylene and Ethephon, Charles R. Barmore .......................................................... 331
Current Status of Controlled Atmosphere Storage of Four Tropical Fruits, Donald H. Spalding and William F. Reeder .......................................................... 334
The Lychee in Florida Today, William R. Grove, Jr. and D. R. Van Sickler .......................................................... 338
Propagating Trials With Some Tropical Species, M. H. Gaskins and N. Almeyda .......................................................... 340
Status of Annona Culture in South Florida, John Popenee .......................................................... 342
An Alternative to the Method Presently Used When Grafting Young Avocado Trees, Miguel C. Uzquiano .......................................................... 345
The Potential of Cold-Tolerant Avocado Introductions in Breeding for Enhanced Winter Hardiness, R. J. Knight, Jr. .......................................................... 348
Lime and Avocado Federal Marketing Orders: What They Mean to the Consumer, Charles Walker and John McGuire .......................................................... 353
Amino Acid Composition and Quality in Selected Varieties of Pecans *Carya illinoensis*, Filmore I. Meredith ................................................................. 362

Sales, Marketing and Profitability of a Small Pick-Your-Own Vineyard, E. A. Grosz and T. E. Crocker ................................................................. 365

Influence of Soil pH, Aluminum and Sulfur on Short Life of Peach Trees Growing on Loamy Sands in Southeastern United States, T. L. Jones and U. S. Jones .... 367

Soil Moisture Studies on Florida Peaches, D. W. Buchanan and D. S. Harrison ...... 371

The Camu Camu, The ‘Wan’ Maprang and the ‘Manila’ Santol, William F. Whitman .. 375

Increasing Yield of ‘Parvin’ and ‘Kent’ Mangos on Lakewood Sand by Increased Nitrogen and Potassium Fertilization, T. W. Young and R. C. J. Koo .............. 380

Two Major Pest Problems of Papayas, D. O. Wolfenbarger and S. D. Walker ........ 384

Induced Infestation of Fruit by the Caribbean Fruit Fly, Anastrepha Suspensa (Loew), A. K. Burditt, Jr., D. von Windeguth and R. J. Knight, Jr. ....................... 386

The Wampee, A Fruit Well Adapted to Southern Florida, Carl W. Campbell .......... 390

*Rhizopus artocarpi* Rot of Jackfruit (*Artocarpus heterophyllus*), R. T. McMillian, Jr. 392

Subtropical Fruits in South Texas, H. K. Wutscher and A. V. Shull .................. 394

Dade County: Its Weather and Crops, Seymour Goldweber ................................. 400

Hail-Wind Damages to Dooryard Trees and Nursery Plants, D. O. Wolfenbarger and S. D. Walker ................................................................. 404

The Sub-Tropical Fruit Industry of Dade County—1974, John F. McGuire ............. 407

Renewed Interest in Roselle (*Hibiscus sabdariffa* L.), the Long-Forgotten “Florida Cranberry,” Julia F. Morton ......................................................... 415

**ORNAMENTAL SECTION**

Influence of Curing and Low Temperature During Storage on Subsequent Sprouting of Caladium Tubers, F. J. Marousky ..................................................... 426

Germination of ‘Neanthe Bella’ Palm Seeds, R. T. Poole and C. A. Conover .......... 429

Influence of Media and Fertilizer Rates on Aglaonema ‘Fransher’, C. A. Conover and R. T. Poole ................................................................. 431

Influence of Growth Regulators on Tropical Foliage Plants, R. W. Henley and R. T. Poole ................................................................. 435

Etiology and Control of Yellow Strapleaf of Chrysanthemum in Florida, R. S. Cox .................................................................................. 438

Phytophthora Leaf Spot of *Philodendron oxycardium* and Related Species, W. H. Ridings and J. J. McRitchie ......................................................... 442
Sclerotinia Blight of Gynura, J. J. McRitchie and J. W. Miller ........................................ 447
Comparative Census Data on the Flower and Nursery Industry, Cecil N. Smith .............. 449
Pricing Container Grown Plants, George R. Perkins ..................................................... 454
Competition From Cut Flower Imports, Mario M. Amin and Cecil N. Smith .................. 457
Interregional Competition in Cut Flower Crops, J. L. Robertson and G. H. Sullivan .... 462
Pest Management Determinant Factors in Chrysanthemum Culture, S. L. Poe and J. L. Green ............................................................ 467
Hydraulic Stake Driver for Flower Growers, L. N. Shaw and R. P. Cromwell ............... 472
Effects of Shade, Mist and Antitranspirant on Rooting and Nutrient Leaching of 
Ligustrum japonicum and Chrysanthemum morifolium Cuttings, A. J. Baggott, Jr. and J. N. Joiner ............................... 474
Gladiolus Flower and Corm Production in Relation to Methods of Curing Corms, R. O. Magie and J. M. Myers .............................................. 478
Effect of B-9 and A-Rest on Height of Garden Chrysanthemum Grown as Single-Plant 
Pots, Gary J. Wilfret ........................................................................................................ 483
Use of Growth Retardants and Photoperiod for Production of Mass Market Mini- 
Standard Pot Mums, J. Hebb, W. T. Witte and T. J. Sheehan ......................................... 489
Effect of Media, Fertilizer Rate, and Ancymidol on Mid-Century Hybrid Lily 'Enchant- 
ment', Pamela A. Marshall, Jasper N. Joiner and Will Witte ........................................ 493
An Integrated Production System to Increase Chrysanthemum Yield and Ascochyta 
Blight Control, J. L. Green and Arthur W. Engelhard ................................................. 496
Influence of Fertilizer Rate on Field Grown Sansevieria, Dennis B. McConnell and 
Robert B. Marlatt ........................................................................................................... 500
Possible Link Between Declining Palm Species and Lethal Yellowing of Coconut 
Palms, Daryl L. Thomas ............................................................................................. 502
Effect of Two Fertilization Intervals, and Four Nitrogen Levels on Growth and 
Chemical Composition of Buxus macrophylla japonica Rehd. & Wils., R. D. Dickey .............. 505
Effects of Media and Fertility on Growth and Flowering of Rieger Begonia, W. T. Witte and T. J. Sheehan .................................................... 508
Effects of Activated Charcoal and Time of Application on Established Kerb Treated 
Poa annua, H. G. Meyers and W. J. McCarthy ................................................................. 513
Control of Rhizoecus floridanus Hambleton (Homoptera: Pseudococcidae) on Bromeliads, R. A. Hamlen ................................................................................. 516
Management of the False Oleander Scale, Pseudaulacaspis cockerelli (Cooley), James 
A. Reinert ......................................................................................................................... 518
Effect of Mycorrhizae on Container Grown Acacia, C. R. Johnson and S. Michelini ...... 520
Nurelle, A New Systemic Fungicide for Control of Phytophthora Crown Rot of 
Peperomia obtusifolia, J. F. Knauss .............................................................................. 522
Transmission Studies of Three Suspected Insect Vectors of Lethal Yellowing of Coconu-

ut Palm, James H. Tsai ..................................................................................................... 528
Beneficial Horticultural Uses of Man's Wastes, Charles R. Johnson and Dennis B. McConnell ................................................................. 528
Tolerance of Tree and Shrub Introductions to a Low Coastal Situation in Southeastern Florida, P. K. Soderholm and R. J. Knight, Jr. .............. 530
Purchase Patterns for Landscape Nursery and Related Productions by Apartment Owners in the Southeast, Merton B. Badenhop and Cecil N. Smith ........................................... 533
Techniques for Treatment of Palm Trees With Antibiotics, Randolph E. McCoy .............................................................. 537
A New Fastigiate Erythrina for Landscaping in Florida, Paul K. Soderholm ............................................................... 541
Responsibilities of the Division of Plant Industry, J. K. Condo ....................................................... 543
Coastal Dune Vegetation, Robert M. Craig ................................................................. 548
Frond Bent-Tip of Butia capitata, S. A. Alfieri, Jr. .................................................................................. 553
Swamp Chestnut Oak, Quercus michauxii Nutt., Robert M. Craig ........................................................ 555
Effects of DPX 1840, PBA, and Glyphosine on Shoot Growth in Garden Chrysanthemums, Kenneth C. Sanderson and Willis C. Martin, Jr. .............................................................................. 558
Seed Treatments to Speed Germination of Zamia integrifolia Ait., G. S. Smith ................................................................. 560

ANNUAL REPORTS

Report of the Executive Committee ................................................................. 569
Financial Statement ................................................................................. 571
List of Members .................................................................................. 572
Index ................................................................................................. 589
Metric-U.S. Conversions Table ................................................................. XXXII
Available Proceedings ........................................................................ 605

SPONSORED STUDENT PROGRAM

Value of Student Participation in the Florida State Horticultural Society Meeting, Donald Long ................................................................. 566
Young Tree Decline, W. T. Jerkins, Jr. ................................................................. 566
 Impressions of Mechanical Harvesting of Citrus, Mark D. Beeman ................................................................. 566
Citrus Production in the Tropical Americas, Ronald C. Lee ................................................................. 567
Reactions to the 87th FSHS Meetings, Robert Barnum ................................................................. 567
Control of Citrus Fruit Decay with Benlate, J. E. Seiple, Jr. ................................................................. 567
Future Trends from the Garden & Landscape Section ................................................................. 568
