

Proceedings
of the
FLORIDA STATE
Horticultural Society
1983

VOLUME LXXXVI

Printed June 1984

CONTENTS

Officers for 1984	II
Officers for 1983	III
U.S.-Metric Conversion Table	IV
Editorial Policy	IV
Presidential Gold Medal Award	VIII
Awards for Outstanding Papers	VIII
List of Presidents	IX
List of Honorary Members	IX
Presidential Address, Charles A. Conover	XI
Principal Address: The Land: A New Vehicle for Agricultural Communication, Henry A. Robitaille	XII

CITRUS SECTION

Citrus Grove Mapping by Microcomputer, S. M. Barros, J. E. Davis, C. H. Blazquez, G. J. Edwards and J. L. Ritzman	1
Florida Agricultural Information Retrieval System: A Computer- ized Crop Management Program With Application to Citrus, H. W. Beck, T. R. Fasulo, J. L. Knapp and D. P. H. Tucker ..	3
An Experimental Computer Network for Growers, J. L. Jackson, Jr. and F. Ferguson, Jr.	5
An Economic Analysis of Irrigation Systems for Production of Citrus in Florida, D. S. Harrison, A. G. Smajstrla and F. S. Zazueta	7
Injection of Agricultural Chemicals Into Micro-Sprinkler Systems, Gary C. Sawyer and Thomas W. Oswalt	11
Clogging of Trickle Irrigation Emitters Under Field Conditions, A. G. Smjstrla, R. C. J. Koo, J. H. Weldon, D. S. Harrison and F. S. Zazueta	13
Timing of Spray Treatments for Citrus Greasy Spot Control, J. O. Whiteside	17
Oil Sprays Control Citrus Rust Mite, A. G. Selhime	21
Growth, Yield and Cold Hardiness of Seven-Year-Old 'Bearss' Lemon Trees on Twenty-Seven Rootstocks, William S. Castle	23
Bacteria-Induced Freezing of Young Citrus Trees, George Yelenosky	25
Comparisons of Wraps and Banks for Citrus Cold Protection, L. K. Jackson, D. W. Buchanan and L. W. Rippetoe	29
Laboratory Determination of the Killing Temperature of Citrus Leaves During the 1981-82 and 1982-83 Low Temperature Periods, W. J. Wiltbank and T. W. Oswalt	31
Effect of Reduced Glyphosate Rates, Spray Volumes and Delivery Systems on Bermudagrass Control in Florida Citrus Groves, Megh Singh and D. P. H. Tucker	34
CO ₂ Enrichment of Carrizo Citrange and Swingle Citrumelo Rootstocks, K. E. Koch, D. W. White, P. H. Jones and L. H. Allen	37

Crop Forecasting for Navels in South Africa, S. F. duPlessis	40
Hydraulic Conductivity of Feeder Roots From Healthy and Blight Affected Citrus Trees, J. P. Syvertsen and M. L. Smith, Jr.	43
Comparison of Zinc, Water Uptake by Gravity <i>Infusion</i> and Syringe Injection Tests for Diagnosis of Citrus Blight, J. H. Graham, L. W. Timmer and R. F. Lee	45
Negative Results in Citrus Blight Transmission Tests, H. K. Wutscher, C. O. Youtsey, P. F. Smith and M. Cohen	48
Spatial and Temporal Distribution of Phytoseiid Mites in Texas Citrus Groves, Harold W. Browning	50
Naphthoquinone Production by <i>Fusarium solani</i> From Blighted Citrus Trees: Quantity, Incidence and Toxicity, R. A. Baker and J. H. Tatum	53

Effect of Soil Application of Promalin on the Root Growth of Citrus Seedlings, C. K. Kiang	56
Freeze Tolerance Versus Freeze Avoidance in Citrus Leaves, J. A. Anderson, D. W. Buchanan and M. J. Burke	57
Synthetic Envelopes for Plastic Drain Tiles in Florida, Harry W. Ford	59
Microcomputer Software Sources for Florida Agriculture, F. S. Zazueta, D. S. Harrison, A. G. Smajstrla and I. Audirac	59

VEGETABLE SECTION

Evaluation of Cauliflower in West-Central Florida During the 1982-1983 Season, T. K. Howe and W. E. Waters	60
Use of the Enzyme-Linked Immunosorbent Assay in Florida's Lettuce Mosaic Virus Seed Indexing Program, B. W. Falk and G. Echenique	63
Status and Potential of Pesticide Resistance Among Fungal and Bacterial Pathogens of Vegetable Crops in Florida, Ronald M. Sonoda and Ken Pohronezny	66
Outbreak of <i>Phytophthora capsici</i> on Vegetable Crops in Southeast Florida, D. O. Chellemi and R. M. Sonoda	69
Zucchini Yellow Mosaic Virus: A Pathogen of Squash and Other Cucurbits in Florida, W. C. Adlerz, D. E. Purcifull, G. W. Simone and E. Hiebert	72
Weed Control in the Strawberry Fruit Production Field, E. E. Albregts and C. M. Howard	75
Weed Control in Seepage Irrigated Fall Transplanted Broccoli and Cauliflower, J. P. Gilreath and P. R. Gilreath	77
Pepper Production as Influenced by Plant Spacing and Nitrogen- Potassium Rates, P. H. Everett and R. Subramanya	79
Cultural Control of Fusarium Wilt Race 3 of Tomato, John Paul Jones and S. S. Woltz	82
Statewide Tomato Cultivar Trials for 1982, Peter J. Stoffella, Herbert H. Bryan, Paul H. Everett, Teresa K. Howe, Jay W. Scott, Salvatore J. Locascio and Stephen M. Olson	84
Broccoli Cultivar Performance Trials in West-Central Florida, A. A. Cszizinsky and J. P. Jones	86
Weed Control in Snap Beans, S. J. Locascio and W. M. Stall	90
Weed Management in Celery in the Everglades Agricultural Area, J. A. Dusky	93
Effect of Bed Size and Supplemental Dry Fertilizer on Yields of Drip Irrigated Cauliflower and Tomato, S. P. Kovach, A. A. Cszizinsky and C. D. Stanley	96
More Rapid Germination of Pepper Seeds After Seed Treatment, D. J. Cantliffe and J. T. Watkins	99
Bacterial Leaf Spot Diseases on Tomatoes in Florida and the Control of Two Such Diseases With Bactericides, J. B. Jones and John Paul Jones	101
Growth and Development Studies of the Tomato, G. A. Marlowe, Jr., A. J. Overman and D. J. Schuster	103
Color and Firmness of Selected Florida-Grown Tomato Cultivars, James W. Rushing and Donald J. Huber	107
Influence of Pollination and Chlorflurenol on Fruit Development in Squash, Daniel J. Cantliffe	109

Labelling Insecticides for Use in Fields of Chinese Cabbage and Endive, C. W. Meister, J. S. Meister and P. C. Bardalaye	113	Poor Fruit Set on Rabbiteye Blueberries After Mild Winters: Possible Causes and Remedies, P. M. Lyrene and T. E. Crocker	195
An Economic Analysis of Producing and Marketing Cole Crops in North and West Florida, Timothy D. Hewitt	114	Population Buildup and Effects of the Reniform Nematode on Papaya in Southern Florida, R. McSorley, J. L. Parrado and R. A. Conover	198
Factors Affecting the Functional Stability of the Gradient-Mulch System, C. M. Geraldson	117	The Spiral Nematode, <i>Helicotylenchus multincinctus</i> , on Bananas in Florida and Its Control, R. McSorley and J. L. Parrado . .	201
Evaluation of Genetic Tolerance to Fusarium Wilt Race 3 in Tomato, J. W. Scott, J. P. Jones and Ray B. Volin	120	Improvement of Peach Rootstock Resistant to Root-Knot Nematodes, W. B. Sherman and P. M. Lyrene	207
Nematicide Options for Northeast Florida Potato Growers, D. P. Weingartner and J. R. Shumaker	122	An Analysis of Profit Potential of Muscadine Grape Production in Florida, Timothy D. Hewitt	209
Florida Agricultural Information Retrieval System: A Computerized Crop Management Program With Application to Tomatoes, H. W. Beck, G. A. Marlowe, Jr., K. L. Pohronezny and F. A. Johnson	128	Cold Hardiness of Two Cultivars of Avocado and a Mango, M. A. McKeller, D. W. Buchanan and C. W. Campbell	212
GARDEN AND LANDSCAPE SECTION			
Evaluation of Flowering Annuals During Fall 1982: Marigold and Zinnia, T. K. Howe and W. E. Waters	131	The Emerging Florida Wine Industry, R. P. Bates	215
Blackrot Control of Door Yard Orchids, R. T. McMillan, Jr.	136	The Bacuripari: A Shade-Tolerant Tropical Fruit Tree for Southern Florida, Carl W. Campbell	219
Propagation and Growth of Cycads—A Conservation Strategy, Bijan Dehgan	137	Control of Citrus Foot Rot and Root Rot, R. T. McMillan, Jr.	221
Aglaonema Breeding—Past, Present and Future, R. J. Henny	140	<i>Anastrepha suspensa</i> (Loew) (Diptera: Tephritidae) Response to Chemical Attractants in the Field, A. K. Burditt, Jr., T. P. McGovern and P. D. Greany	222
Seed Yield and Quality of Nine Florida Tomato Cultivars, H. J. Hill, S. H. West and W. E. Waters	141	Use of Sulfur Coated Urea, Ammonium Sulfate and Urea Phosphate on Blueberries in Florida for N and pH Control, T. E. Crocker	226
Influence of Growth Regulators, Temperature, and Red Light on Sprout Production of Three Sweet Potato (<i>Ipomoea batatas</i> (L) Lam.) Cultivars, Fouad M. Basiouny	144	Rooting Characteristics of Eight Rabbiteye Blueberries Recommended for Florida, R. H. Biggs, P. G. Webb and S. V. Kossuth	228
A Comparison of Overseeding Management Techniques, Charles H. Peacock and A. E. Dudeck	147	Preservation of Tropical Fruits by Drying, B. A. Campbell and C. W. Campbell	229
Foraging Sites of the Southern Mole Cricket, <i>Scapteriscus acletus</i> (Orthoptera: Gryllotalpidae), James A. Reinert	149	Conditioning 'Tahiti' Limes to Reduce Chilling Injury, Donald H. Spalding and William F. Reeder	231
Spatial Distribution of Southern Red Mite on Field Grown <i>Ilex crenata</i> , G. H. Childs, D. H. Habeck, T. R. Ashley and S. L. Poe	151	The Roadside Fruit Outlet: Consumer Acceptance and Feasibility, J. H. Aldrich and L. H. Baker	233
A Successful Injection and Underplanting Program to Combat Lethal Yellowing of Palms, Clayton E. Hutcheson, Joe Ugi and Henry M. Donselman	154	Effects of Postharvest Treatments on Ripening, Carotenoids and Quality of Canned 'Babygold 7' Peaches, Elias D. Dekazos . .	235
Susceptibility of Slash, Sand, and Loblolly Pines to <i>Bursaphelenchus xylophilus</i> (Nematoda: Aphelenchidae) and its Distribution Within the Host, A. C. Tarjan and M. A. Luzzi	156	Genetic Resistance of Hybrid Chestnut to Blight, <i>Endothia parasitica</i> , S. Michelini	239
Rate, Method, and Time of Overseeding White Clover on Bermudagrass During the Winter, A. E. Dudeck and C. H. Peacock	159	Utilization Potential for Semi-Tropical and Tropical Fruits and Vegetables in Therapeutic and Family Diets, Janell Smith, Seymour Goldweber, Mary Lamberts, Richard Tyson and J. S. Reynolds	241
Aralias in Florida Horticulture, D. G. Burch and T. K. Broschat	161	ORNAMENTAL SECTION	
Annuals in the Florida Landscape—Why Failures Occur and How to Overcome Them, B. Tjia	165	Tuber Production of Caladium Cultivars Grown in a Sandy Soil, Gary J. Wilfret	245
The Vegetable Specimen Garden at the University of Florida, M. B. Lazin	167	Soil Fumigation Increases Caladium Tuber Production on Sandy Soil, A. J. Overman and B. K. Harbaugh	248
Woman's Tongue, or Cha-Cha (<i>Albizia lebeck</i> Benth.), A Fast-Growing Weed Tree in Florida, Is Prized for Timber, Fuel, and Forage Elsewhere, Julia F. Morton	173	Evaluation of Fertilizer Types and Rates on <i>Caladium X hortulanum</i> Birdsey 'Candidum' Tuber Production in Muck and Sandy Soil Management Systems, B. K. Harbaugh and A. J. Overman	250
Wild Flowers—An Aesthetic Way of Conserving Water and Fuel in Florida, Charlie A. Lowery	178	Melaleuca: An Alternative Container Media Component for Woody Ornamentals, Dewayne L. Ingram and Charles R. Johnson	254
KROME MEMORIAL INSTITUTE			
Avocado Callus and Bud Culture, M. J. Young	181	Assessment of Sewage Sludge Compost Mixtures as Container Growing Media, George E. Fitzpatrick and Nina S. Carter	257
Ethylene Biosynthesis of Citrus Peel Explants as Influenced by Cycloheximide, E. A. Baldwin and R. H. Biggs	183	Change in pH and Soluble Salts of Container Mixes, Richard T. Poole and Charles A. Conover	260
Abscission and Ethylene Production in Mango (<i>Mangifera indica</i> L.) Fruit cv. Tommy Atkins, Robert Nunez-Elisea and Tom L. Davenport	185	Influence of Shade and Fertilizer Levels on Yield of Croton Stock Plants, Charles A. Conover and Richard T. Poole	261
Importance of Iron to Plants Grown in Alkaline Soils, T. L. Davenport	188	<i>Ficus benjamina</i> Responses to Growth Retardants, James E. Barrett and Terril A. Nell	264
Pruning, Yield and Morphology of 3 Rabbiteye Blueberry Cultivars in Florida, Frederick S. Davies	192	Micropropagation of Leatherleaf Fern (<i>Rumohra adiantiformis</i>), Shirmy Y. Chen and Paul E. Read	266
		Premature Wilt of Leatherleaf Fern With Different Pinnac Maturities From Various Growing Environments, F. J. Marousky	270

Production and Postharvest Culture of <i>Heliconia psittacorum</i> Flowers in South Florida, Timothy K. Broschat and Henry M. Donselman	272	The Effect of Storage Conditions and Wax Treatment on the Compressive Strength of Corrugated Fiberboard Peach Boxes, F. E. Henry, A. H. Bennett, B. L. Tyson and J. M. Wells	325
A Cost Analysis of Pest Control on Pompon Chrysanthemum Farms in Florida, J. W. Prevatt and J. F. Price	274	Moisture Loss and Juice Quality From Waxed and Individually Seal-Packaged Citrus Fruits, Albert C. Purvis	327
The Feasibility of Controlling Areca Palm Leaf Spot by Altering Host Nutrition, A. R. Chase and R. T. Poole	278	Potential and Problems of Film-Wrapping Citrus in Florida, L. Gene Albrigo and M. A. Ismail	329
A New Disease of <i>Diffenbachia maculata</i> (Lodd.) G. Don "Camille": Leaf Spot Caused by <i>Colletotrichum gloeosporioides</i> (Penz.) Sacc. During Transit and Its Control by the Application of Fungicides, Charles R. Semer, IV, Boligala C. Raju and Brian L. Tepper	280	Delaying Deterioration of Broccoli and Cucumber Using Polymeric Films, M. E. Elkashif, D. J. Huber and M. Sherman ..	332
Host Range and Pathogen Specificity Studies of <i>Cylindrocladium spathiphylli</i> , C. L. Schoulties and N. E. El-Gholl	282	Control of Florida Citrus Decays With Guazatine, G. Eldon Brown	335
Chemical Control of Scab (<i>Sphaceloma poinsettiae</i>) on Outdoor Grown Poinsettia Plants in Florida, Arthur W. Engelhard ..	285	Mobile Processing Line for Southeastern Grapes—Status and Plans, R. L. Coleman, C. J. Wagner, Jr. and R. E. Berry	338
Field Evaluations of New Pesticides for Control of Leafminers, Mites and Aphids on Flower Crops, James F. Price	287	Evaluation of Van Containers for Cold Treatment of Citrus Fruit for Quarantine Purposes, L. G. Houck and R. T. Hinsch	340
Discussion of a Microcomputer Program for Performing Pesticidal Spray Calculations in Horticultural Crops, C. D. Stanley, J. F. Price and D. E. Short	292	Some Characteristics of Tahiti Limes at Equal Periods of Time After Different Blooms, T. T. Hatton, W. R. Reeder and V. Chew	345
Watering Frequency and Light Levels Affect Growth and Anatomy of Lemon Vine, D. B. McConnell and J. W. Host	294	Decay, Firmness and Color Development of Florida Bell Peppers Dipped in Chlorine and Imazalil, and Film Wrapped, W. R. Miller, D. H. Spalding and L. A. Risse	347
Cold Hardiness in an Intergeneric Orchid Cross, M. A. McKellar, D. W. Buchanan and T. J. Sheehan	297	Film Wrapping and Decay of Eggplant, L. A. Risse and W. R. Miller	350
Fusarium Stem Rot of Chrysanthemums (<i>Chrysanthemum x morifolium</i> Ramat.) Caused By <i>Fusarium solani</i> (Mart.) Appel & Wr: In Vitro Fungicide Efficacy and Disease Control Studies, Brian L. Tepper, Boligala C. Raju and Charles R. Semer, IV	300	Compositional Changes in the Peel of 'Dancy' Tangerine and 'Marsh' Grapefruit at Various Stages of Maturity, P. G. Adsule, M. A. Ismail and G. E. Brown	352
Storage, Pulsing, Holding Solutions and Holding Solution pH Affect Solution Uptake, Weight Change and Vase Life of Cut Leatherleaf Fern Fronds, R. H. Stamps and T. A. Nell	304	Processing Muscadine Grapes Into Raisins, C. F. Savoy, J. R. Morris and V. E. Petrucci	355
Nutrient Element Changes in Leatherleaf Ferns With Different Stages of Growth, J. B. Fitts, J. W. Fitts and A. H. Hunter ..	307	Atmospheric Levels of Ethylene Dibromide at Florida Citrus Fumigation Stations and Port Warehouses, M. A. Ismail and J. O. Craig	358
HANDLING AND PROCESSING SECTION		Observations on Citrus in China, W. F. Wardowski and J. M. Bonnell	361
Non-Florida Citrus Juice Reprocessing, R. P. Beilock and Lora Kutteroff	309	Fungicides for Postharvest Decay Control in Loguats, David J. Hall	366
Accurate Compilation of Brix, Apparent Specific Gravity, Apparent Density, Weight, and Pounds Solids of Sucrose Solutions, C. S. Chen	313	Control of Chaff Scale on 'Dancy' Tangerine, R. F. Brooks and J. L. Knapp	367
Inter-Relationships of °Brix, Brix-Acid Ratio, Naringin and Limonin and Their Effect on Flavor of Commercial, Canned, Single-Strength Grapefruit Juice, S. M. Barros, J. E. Davis, M. H. Dougherty and J. T. Griffiths	316	Israeli and Egyptian Citrus Processing Observations, Robert D. Carter	369
Lethal Effects of Cold Storage Temperatures on Caribbean Fruit Fly in Grapefruit, C. A. Benschoter	318	Sponsored Student Program	370
Impact of Postharvest Handling Procedures on Soft Rot Decay of Bell Peppers, Mark Sherman and Judith J. Allen	320	Constitution	374
Effect of Scrubbing Ethylene During Storage of Tomatoes, L. A. Risse and W. R. Miller	322	By-Laws	374
		Executive Committee Report	376
		Membership List	378
		Index	387
		Available Proceedings	399
