Address of Welcome — Major M. J. Mackler, Tampa, Florida	2
Response to Address of Welcome — Marvin H. Walker, Lakeland, Florida	3
President's Annual Address	4
Federal Crop Insurance — Cecil A. Johnson, Assistant Manager Federal Crop Insurance Corporation, U. S. D. A., Washington, D. C.,	7
Address — A. E. Nelson, Assistant Field Manager California Fruit Growers Exchange, Los Angeles, California	13
Memorial Service — F. M. O'Byrne, Chairman, Lake Wales, Florida	15
Soil Reaction Tendencies in Sandy Citrus Soils — W. L. Tait, Winter Haven, Florida	16
The Benefits Derived from the Practical Use of Scientific Facts in Citrus Culture — H. A. Thullbery, Lake Wales, Florida	22
Progress Report of the Effects of No Potassium and Various Sources of Amounts of Potassium on Citrus — George M. Bahrt and Wallace R. Roy	26
The Effect of Zinc, Iron, Manganese and Magnesium Applied to Frenched and Bronzed Orange Groves, on the Vitamin C. Content of Oranges — Wallace R. Roy and George M. Bahrt	34
Some Effects of Soils and Fertilizers on Fruit Composition — B. R. Fudge and G. B. Fehmerling, Citrus Experiment Station, Lake Alfred, Florida	38
Zinc As A Corrective for Little-Leaf of Peach in Florida — G. H. Blackmon, Horticulturist and R. D. Dickey, Assistant Horticulturist, University of Florida Agricultural Experiment Station	46
Peaches As A Potential Crop in South Florida — Robt. P. Thronton, Tampa, Florida	49
The AAA Program for Citrus — H. G. Clayton, Agricultural Extension Service, Gainesville, Florida	52
Thrips Attacking Citrus Fruits in Florida — W. L. Thompson, Associate Entomologist Citrus Experiment Station, Lake Alfred, Florida	56
The Status of the Melanose Fungus in Cold Injured Citrus Wood — R. K. Voorhees, Assistant Plant Pathologist, Citrus Experiment Station, Lake Alfred, Florida	61
The Status of Citrus Pests Following the Recent Cold — Ralph L. Miller, Orlando, Florida	64
The Status of Citrus Pests Following the Recent Cold — W. L. Thompson, Associate Entomologist, Citrus Experiment Station, Lake Alfred, Florida	67

The Annual Banquet	72
Seasonal Changes in the Principal Varieties of Florida Oranges — Paul L. Harding, Associate Horticulturist, Division of Fruit and Vegetable Crops and Diseases, Bureau of Plant Industry, U. S. Department of Agriculture,	78
Our Changing Agriculture — Dr. Wilmon Newell, University of Florida, Gainesville Symposium on What Constitutes Quality In Citrus Fruits — Led by W. L'E. Barnett, Tangerine, Florida	87
Quality of Citrus From the Legal Standpoint — J. J. Taylor, State Chemist, Tallahassee, Florida	90
Trade Confidence and Consumer Satisfaction — Norman C. Ives, President, Philadelphia Terminals Auction Company	91
What Constitutes Quality in Florida Citrus Fruit — Jos. A. Schwab, New York Auction Co., New York	94
Quality From The Health Standpoint — Dr. Dana Coman, Johns Hopkins Hospital, Baltimore, Md.,	95
The Quality of Citrus Fruit as Affected by Cultural Practice — Dr. O. C. Bryan, Lakeland, Florida	97
Problems in Producing an Orange of Good Quality and in Selling it on its Merits — E. F. DeBusk, Agricultural Extension Service, Gainesville, Florida	98
Protecting The Citrus Markets — G. E. Copeland, Supervising Inspector, Citrus Inspection Bureau, State Department of Agriculture, Winter Haven, Florida	100
Facts And Fancies About Florida Freezes — Eckley S. Ellison, Weather Bureau, U. S. D. A., Lakeland, Florida	111
Preliminary Reports on Varieties, and Other Factors As Influencing Cold Resistance In Citrus — W. W. Lawless and A. F. Camp, Citrus Experiment Station, Lake Alfred, Florida	115
Symposium on The Protection of Groves Against Cold by Firing — Led by F. M. O'Byrne, Lake Wales, Florida	120
My Views Regarding Grove Firing — W. A. Varn	126
The Protection of Groves Against Cold by Firing — W. F. Ward, Brooksville, Florida	126
Firing Citrus Groves in Orange County — Howard Phillips, Orlando, Florida	127
Firing 300 Acre Grove at Citra, During the January 1940 Freeze—W. P. Crosby, Citra, Florida	130
A Diagnosis of Certain Growing Pains Evident in the Citrus Industry — S. R. Smith, Principal Agricultural Economist, General Crops Section, Division of Marketing and Marketing Agreements, U. S. D. A.,	133
The Position of the Grower of Small Acreage in the Citrus Industry — E. L. Wirt, Babson Park, Florida	134

KROME MEMORIAL INSTITUTE

Fertilizer Studies With Avocados — H. S. Wolfe, University of Florida, Gainesville and S. J. Lynch, Sub-Tropical Experiment Station, Homestead	147
Zinc Deficiency of the Avocado — Geo. D. Ruehle, Sub-Tropical Experiment Station, Homestead, Florida	150
Copper Sulphate As A Corrective for Dieback, A New Disease of the Avocado — Geo. D. Ruehle and S. J. Lynch, Sub-Tropical Experiment Station, Homestead	152
Spraying Experiments for Control of Avocado Anthracnose — Geo. D. Ruehle, Sub-Tropical Experiment Station, Homestead, Florida	155
Observations on Protection of Avocados from Cold Injury — W. F. Ward, Avon Park and Brooksville, Florida	158
Looking Ahead In California — Geo. B. Hodgkin, Manager Calavo Growers of California, Los Angeles, California	161
Grove Irrigation In Dade County — W. H. Krome, Homestead, Florida	163
Little-Leaf of Mangos; A Zinc Deficiency —S. J. Lynch and Geo. D. Ruehle, Sub-Tropical Experiment Station, Homestead, Florida	167

Experiences in the Propagation of Some Sub-Tropical Fruits — Horace M. Sherwood, Fort Myers, Florida	169
Observations On Pineapple Growing — O. M. Winchester, Boynton, Florida	173
Rooting Citrus Cuttings With Synthetic Growth-Substances — William C. Cooper, Bureau of Plant Industry, U. S. D. A., Orlando, Florida	174
A Descriptive List of Some of the Tropical Plants and Trees Introduced and Growing in Peace's Jungle Garden at Buckingham, Fla. — Mrs. Edwin Peace	177
Some Chemical Constituents of Papayas and Their Relation to Flavor — S. J. Lynch and W. M. Fifield, Sub-Tropical Experiment Station, Homestead, Florida	181
Effect of Recent Freeze on Lychee, Jaboticaba and Mimosa Bracaatinga — Hamilton P. Traub, Prin. Hort., and T. Ralph Robinson, Sr., Phys., Division of Fruit and Vegetable Crops and Diseases, Bureau of Plant Industry, U. S. D. A., Orlando, Florida	184
Observations on Protection of Papayas From Cold — Scott U. Stambaugh, Babson Park, Florida	188
Observations on the January 1940 Cold Injury to Tropical and Sub-Tropical Plants — S. J. Lynch, Sub-Tropical Experiment Station, Homestead, Florida	192
Rootstocks for Tangelos and Other Citrus Hybrids; and Fruit Seed Content — T. Ralph Robinson, Senior Physiologist, U. S. D. A., Orlando, Florida	195

VEGETABLE DIVISION

Important Factors in the Marketing of Florida Iceberg Lettuce — W. M. Scott and Alan W. Wilson, Sanford, Florida	200
Some Effective Methods of Applying Fertilizer — Victor Fleetwood Nettles, Assistant Horticulturist, Florida Agricultural Experiment Station, Gainesville, Florida	202
Cost of Producing Celery in The Everglades — R. H. Howard, Extension Economist in Farm Management, Gainesville, Florida	206
The Response of Several Strains of Crisp-Head Lettuce to Seasonal Change on the Florida West Coast — Dr. J. R. Beckenbach, Bradenton, Florida	210
Notes From The Diary of Edmund Hall Hart — A Historical Article	214
Report of Necrology Committee	217
Report of Secretary	221
Report of Treasurer	222
Report of Executive Committee	225
Constitutional Amendments	226
Report of Attendance Cup Committee	226
Report of Legislative Committee	227
Report of Nominating Committee	227
Report of Final Resolutions Committee	228
