

Proceedings
of the
FLORIDA STATE
Horticultural Society

1952

VOLUME LXV

PRINTED 1953

CONTENTS

Officers for 1952	IV
Officers for 1953	V
Constitution and By-Laws	VI
Awards of Honorary Memberships	IX
List of Members	XI
President's Annual Address, Frank L. Holland, Winter Haven	1
Florida's Changing Agriculture. Willard M. Fifield, Director, Florida Agricultural Experiment Stations, University of Florida, Gainesville	3
Radioactive Tracer Elements as Tools in Modern Plant Science Research, Roger W. Bledsoe, Florida Agricultural Experiment Station, Gainesville	7
Progress as a Problem in the Marketing of Horticultural Products, S. R. Smith, Director, Fruit and Vegetable Branch, Production and Marketing Administration, U. S. Department of Agriculture, Washington, D. C.	10
Panel on Toxic Pesticides, John M. Bellows, Miami, Moderator	14

CITRUS SECTION

Correction of Iron Chlorosis in Citrus with Chelated Iron, C. D. Leonard and Ivan Stewart, Florida Agricultural Experiment Stations, Citrus Experiment Station, Lake Alfred	20
The Cause of Yellow Tipping in Citrus Leaves, Ivan Stewart and C. D. Leonard, Florida Agricultural Experiment Stations, Citrus Experiment Station, Lake Alfred	25
Evidence of Tristeza, Or Quick Decline, Virus in Florida, Theodore J. Grant, U. S. Department of Agriculture, Orlando	28

Mineral Composition of Citrus Leaves from the Indian River Area of Florida, Herman J. Reitz and Wallace T. Long, Florida Agricultural Experiment Stations, Citrus Experiment Station, Lake Alfred	32
Effect of Copper and Lead Arsenate Sprays on the Total Acid and Maturity of Duncan Grapefruit, E. J. Deszyck, H. J. Reitz and J. W. Sites, Florida Agricultural Experiment Stations, Citrus Experiment Station, Lake Alfred	38
Methods of Applying Insecticides with Different Spray Machines, Charles R. Stearns, Jr., W. L. Thompson, R. B. Johnson and E. J. Deszyck, Florida Agricultural Experiment Stations, Citrus Experiment Station, Lake Alfred	42
The Effect of Spreading Decline on the Root Distribution of Citrus, Harry W. Ford, Florida Agricultural Experiment Stations, Citrus Experiment Station, Lake Alfred	47
Seasonal and Geographical Distribution of Some Citrus Insects and Mites in Florida, Robert M. Pratt, Florida Agricultural Experiment Stations, Citrus Experiment Station, Lake Alfred	50
A Citrus Budwood Certification Program for Florida, R. S. Edsall, Vero Beach	55
Comments on Methods of Minimizing Tristeza Damage, E. P. DuCharme and L. C. Knorr, Florida Agricultural Experiment Stations, Citrus Experiment Station, Lake Alfred	57
Iron Chlorosis in Florida Citrus Groves in Relation to Certain Soil Constituents, Walter Reuther and Paul F. Smith, U. S. Department of Agriculture, Orlando	62
Citrus Rootstock Trials, James A. Cook, Geo. E. Horanic and F. E. Gardner, U. S. Department of Agriculture, Orlando	69
Control of Orange Decays by Pyrollidine Alone and Mixed with 2-Aminopyridine, J. R. Winston and G. A. Meckstroth, U. S. Department of Agriculture, Orlando	78
Pruning Citrus in Relation to Disease Control, James F. L. Childs, U. S. Department of Agriculture, Orlando	83
Some Varietal Responses of Florida Oranges to Pre-Harvest Sprays, Philip C. Reece and George E. Horanic, U. S. Department of Agriculture, Orlando	88
Effect of Varying Amounts of Potash on Yield and Quality of Valencia and Hamlin Oranges, John W. Sites and Edward J. Deszyck, Florida Agricultural Experiment Stations, Citrus Experiment Station, Lake Alfred	92
Observations on Coverage of Sprays in Relation to Insect Control in Commercial Operations, Arthur F. Mathias, Entomologist, Superior Fertilizer Co., Tampa	98
Heavy-Metal Nutrition in Relation to Iron Chlorosis of Citrus Seedlings, Paul F. Smith and Alston W. Specht, U. S. Department of Agriculture, Orlando.....	101

VEGETABLE SECTION

Influence of Certain Factors on Tomato Quality, R. A. Dennison, C. B. Hall and Victor Nettles, Florida Agricultural Experiment Station, Gainesville	108
Possibilities of Mechanical Potato Harvesters and Indicated Adjustments in Florida Operations, R. E. L. Greene, Florida Agricultural Experiment Station, Gainesville	112
Correction of Molybdenum Deficiency in Cauliflower, A. H. Eddins, E. N. McCubbin, Nathan Gammon and G. M. Volk, Florida Agricultural Experiment Station, Gainesville	114
Some Factors Affecting Production of Broccoli at Hastings, E. N. McCubbin, Florida Agricultural Experiment Stations, Potato Investigations Laboratory, Hastings	118
Trends in Costs and Returns, Donald L. Brooke, Florida Agricultural Experiment Station, Gainesville	121
Some Developments in Corn Spraying Equipment Applicable in the Everglades, John W. Randolph and Warren N. Stoner, Florida Agricultural Experiment Stations, Everglades Experiment Station, Belle Glade	124
Promising Commercial Vegetable Varieties for Florida, V. F. Nettles, Florida Agricultural Experiment Station, Gainesville	130
The Importance of Stage of Maturity upon the Edible Quality of Green Beans, Lima Beans and Southern Peas, Maurice W. Hoover, Florida Agricultural Experiment Station, Gainesville	133
Survey of Research on New Soil Conditioners, Gaylord M. Volk, Florida Agricultural Experiment Station, Gainesville	137
Preliminary Report on Copper Toxicity and Iron Chlorosis in Old Vegetable Fields, Philip J. Westgate, Florida Agricultural Experiment Stations, Central Florida Experiment Station, Sanford	143
Tomato Late Blight Resistance as Affected by Races of <i>Phytophthora Infestans</i> , Robert A. Conover, Sub-Tropical Experiment Station, Homestead and James M. Walter, Gulf Coast Experiment Station, Bradenton	147
A Vegetable-Pasture Rotation Study at the Indian River Field Laboratory, N. C. Hayslip and J. F. Darby, Indian River Field Laboratory, Ft. Pierce, and R. J. Allen, Everglades Experiment Station, Belle Glade	148
Minor Element Deficiencies and Field Corrections Established by Research in Florida Vegetables, W. T. Forsee, Jr., Florida Agricultural Experiment Stations, Everglades Experiment Station, Belle Glade	154
Status of Pesticide Residues on Florida Vegetables, C. H. Van Middlelem, Florida Agricultural Experiment Station, Gainesville	159
Some Reasons Why We Have Wormy Sweet Corn, E. G. Kelsheimer, Florida Agricultural Experiment Stations, Gulf Coast Experiment Station, Bradenton....	162

Report on the Use of Chemical Weed Killers for Nutgrass Control, Donald S. Burgis and W. G. Cowperthwaite, Florida Agricultural Experiment Stations, Gulf Coast Experiment Station, Bradenton	163
Greenhouse Tests of the Resistance of Ohio MR17 and Niagara Cucumbers to the Southern Strain of Cucumber Mosaic Virus, Warren N. Stoner, Florida Agricultural Experiment Stations, Everglades Experiment Station, Belle Glade	165
The Significant Development in Cultural and Harvesting Equipment in Florida's Vegetable Industry, Paul B. Dickman, Dickman Farms, Inc., Ruskin	169
Studies on Control of Blackheart of Celery, Carroll M. Geraldson, Florida Agricultural Experiment Stations, Gulf Coast Experiment Station, Bradenton	171
The New Immokalee Area, H. L. Johnson, County Agent, LaBelle	173
The Spread from Grower to Consumer with Specific Crops, Edwin W. Cake, Florida Agricultural Experiment Station, Gainesville	175
Status of the Mechanical Bean Picker, R. J. Fortier, Agronomist, American Can Co., Baltimore, Md.	177

KROME MEMORIAL SECTION

Effect of Cold Storage on Some Florida Avocados, Margaret J. Mustard, University of Miami, Coral Gables	180
Observations on Rooting of Lychee Cuttings, J. J. Ochse, University of Miami, Coral Gables	186
The Naranjilla (<i>Solanum quitoense</i> , Lam.), R. Bruce Ledin, Florida Agricultural Experiment Stations, Sub-Tropical Experiment Station, Homestead	187
Grafting Studies on Macadamia and Sapodilla in Relation to Carbohydrates, Using Pre-girdled Scions, Ibrahim Fahmy, Fouad I University, Giza, Egypt	190
Some Field Observations on Florida Experiment Station Hybrid Grapes, Warren N. Stoner, Florida Agricultural Experiment Stations, Everglades Experiment Station, Belle Glade, and Loren H. Stover, Florida Watermelon and Grape Investigations Laboratory, Leesburg	193
The Occurrence of Papaya Fruit Fly in Mango, F. Gray Butcher, University of Miami, Coral Gables	196
Systox, A Systemic Insecticide for Pineapple Mite Control, D. O. Wolfenbarger, Florida Agricultural Experiment Stations, Sub-Tropical Experiment Station, Homestead	197
Grafted Casuarina Trees for Use as Windbreaks or Ornamentals, George D. Ruehle, Florida Agricultural Experiment Stations, Sub-Tropical Experiment Station, Homestead	199
A Hydroponic Mist-Type Plant Propagator, Joel Kuperberg and William A. Murphy, University of Miami, Coral Gables	201

The Geographic and Native Plant Names Approach to World-Wide Economic Plant Distribution and Exchange, G. Weidman Groff, Laurel	203
Two Virus Diseases of the Papaya, Robert A. Conover, Sub-Tropical Experiment Station, Homestead	209

PROCESSING SECTION

Frozen Concentrated Citrus Juices – Co-Packer Quality Control, H. S. Madsen and A. D. D’Ercole, Birds Eye Div., General Foods Corp., Lakeland	210
Preparation of Tangerine Puree, Gray Singleton, Southland Frozen Foods, Inc., Lakeland	214
Clarification in Heat-Treated Pineapple Orange Concentrates, C. D. Atkins, R. L. Huggart and F. W. Wenzel, Florida Citrus Experiment Station, Lake Alfred	217
Pectinesterase Retention in Citrus Juices Stored at Various Temperatures, A. H. Rouse, Florida Citrus Experiment Station, Lake Alfred	220
The Glucosides of Citrus, J. W. Kesterson and R. Hendrickson, Florida Citrus Experiment Station, Lake Alfred	223
Viscosity of Citrus Molasses, R. Hendrickson and J. W. Kesterson, Florida Citrus Experiment Station, Lake Alfred	226
Selected Studies of Consumer Preferences for Canned Orange Juices, Richard L. D. Morse, Professor of Family Economics, Florida State University, Tallahassee	230
Changes in Pectic Substances in Valencia Orange Juice during Concentration, J. H. Dietz and F. W. Wenzel, Florida Citrus Experiment Station, Lake Alfred	234
Effect of Concentration on Clarification in Concentrated Citrus Juices, Richard L. Huggart, Florida Citrus Experiment Station, Lake Alfred	237
Ultrasonic Treatment of Orange Juice Products, T. J. Kew, U. S. Citrus Products Station, Winter Haven	242
Examination of Experimental Packs of Frozen Tangerine Concentrate, F. W. Wenzel, R. L. Huggart, R. W. Olsen, E. L. Moore and C. D. Atkins, Florida Citrus Experiment Station, Lake Alfred	246
Studies on the Preparation of Processed Celery Products, R. A. Dennison, Florida Agricultural Experiment Station, Gainesville	250
Reduction of Scale Formation in Citrus Molasses Evaporators, R. W. Kilburn, Florida Citrus Canners Cooperative, Lake Wales	253
Commercial Possibilities of Frozen Tropical Fruit Juice Concentrate Use with or Without Citrus Juices, Arthur L. Stahl, University of Miami, Tropical Food Research Laboratories, South Miami	255
“Paired Comparison” Taste Panel Procedures for Citrus Juice, A. E. Willson, Minute Maid Corp., Plymouth, Fla., and W. D. Hanson, Statistics Consultant to Minute Maid Corp., College of Agriculture, University of Florida, Gainesville	258

ORNAMENTAL SECTION

Progress in Gladiolus Research, Robert O. Magie and W. G. Cowperthwaite, Gulf Coast Experiment Station, Bradenton	263
Chorisia Trees — How Many Kinds Are There?, Edwin A. Menninger, The Flowering Tree Man, Stuart	266
Hibiscus Progress in 1952, Ruth Stuart Allen, Executive Secretary, American Hibiscus Society, Coral Gables	279
Florida Nurserymen and Growers Association, Charles R. Wedding, St. Petersburg	281
Foliage Plants, Alex Laurie, Whistling Pines Gardens, Inc., Eustis	282
Landscaping with Tropical and Subtropical Fruits, H. S. Wolfe, College of Agriculture, University of Florida, Gainesville	284
Soil Sterilization, J. A. Pinckard, Shell Chemical Corporation, Denver, Colo.	286
The Value of an Association or Society to a Commercial Horticultural Industry, Ed H. Price, Jr., Florida Gladiolus Growers Association, Bradenton	289
Common Sense vs. Tradition in Orchid Culture, T. A. Fennel, Jr., Orchid Jungle, Homestead	293
What Grass to Plant Where, Roy A. Bair, Agricultural Consultant, Belle Glade	295
Chrysanthemums Become an Important Cut Flower Crop in Florida, J. Hapgood Brooks, III, University of Florida, Gainesville	299
Salt Tolerant Plants for South Florida, Rae Ferguson, Sarasota	306

ANNUAL REPORTS

General Business Meetings of Society	314
Report of Executive Committee	314
Resolutions	314
Report of Treasurer	315
Report of Florida Agricultural Council Committee	316
Necrology	319
