

Proceedings
of the
FLORIDA STATE
Horticultural Society
1953

VOLUME LXVI

PRINTED 1954

CONTENTS

Officers for 1953	IV
Officers for 1954	V
Constitution and By-Laws	VI
List of Members	IX
President's Annual Address, R. S. Edsall, Vero Beach	1
Costa Rica and Its Agriculture, Harold Mowry, Consulting Director, Foreign Agricultural Service, U.S.D.A., San Jose, Costa Rica	2
Soil Microbiology Contributes to Florida Agriculture, F. B. Smith, Head, Department of Soils, University of Florida, Gainesville	5
The Outlook for 1954, J. Earl Coke, Assistant Secretary of Agriculture, Washington, D. C.	12

CITRUS SECTION

Frozen Tangerine Concentrate, F. W. Wenzel, E. L. Moore, and C. D. Atkins, Florida Citrus Experiment Station, Lake Alfred	14
The Necessity for Quality Fruit in the Terminal Markets and Its Advantages to the Dealer Service Department and Florida Grower, Charles J. Koechling, Jr., Eastern Division Manager, Florida Citrus Commission, New York	17
Present Status of Tristeza in Florida, M. Cohen and L. C. Knorr, State Plant Board of Florida, Winter Haven	20
Root Distribution of Chlorotic and Iron-Chelate-Treated Citrus Trees, Harry W. Ford, Florida Citrus Experiment Station, Lake Alfred	22

XVIII FLORIDA STATE HORTICULTURAL SOCIETY, 1953

A Preliminary Report on the Requirements of Young Valencia Trees for Zinc, Manganese, and Copper When Fertilized at Two Different Rates, J. T. Griffiths and J. K. Enzor, Jr., Lyons Fertilizer Co., Winter Haven	27
Observations on Citrus Blight, J. F. L. Childs, U. S. Horticultural Station, Orlando	33
Copper Oxide as a Soil Amendment for Citrus, Herman J. Reitz and Neil F. Shimp, Florida Citrus Experiment Station, Lake Alfred	37
Degreening Conditions for Florida Citrus, W. Grierson and W. F. Newhall, Florida Citrus Experiment Station, Lake Alfred	42
Factors in the Control of the Burrowing Nematode on Citrus, R. F. Suit, E. P. DuCharme, T. L. Brooks, and H. W. Ford, Florida Citrus Experiment Station, Lake Alfred	46
Chelated Iron as a Corrective for Lime-Induced Chlorosis in Citrus, C. D. Leonard and Ivan Stewart, Florida Citrus Experiment Station, Lake Alfred	49
<i>The Effect of Fertilizer Timing and Rate of Application on Fruit Quality and Production of Hamlin Oranges</i> , John W. Sites, I. W. Wander, and E. J. Deszyck, Florida Citrus Experiment Station, Lake Alfred	54
The Effect of Borax and Lead Arsenate Sprays on the Total Acid and Maturity of Marsh Grapefruit, E. J. Deszyck and J. W. Sites, Florida Citrus Experiment Station, Lake Alfred	62
Spray Programs, Varieties, and Weather Conditions in Relation to Six-Spotted Mite and Purple Mite Infestations, Robert M. Pratt and W. L. Thompson, Florida Citrus Experiment Station, Lake Alfred	65
Aids in the Detection of Tristeza in Florida Citrus, Theodore J. Grant, U. S. Horticultural Station, Orlando	69
Relation of pH and Soil Type to Toxicity of Copper to Citrus Seedlings, Walter Reuther, Paul F. Smith and Geo. K. Scudder, Jr., U. S. Horticultural Station, Orlando	73
Mineral Content of Oranges in Relation to Fruit Age and Some Fertilization Practices, Paul F. Smith and Walter Reuther, U. S. Horticultural Station, Orlando	80
Mineral Composition of Valencia Orange Seedlings Grown in Solutions with Varying Amounts of Copper, Zinc, Manganese, and Iron, Paul F. Smith and Alston W. Specht, U. S. Department of Agriculture, Orlando, Florida, and Beltsville, Maryland	85
Preliminary Studies of Aphid Transmission of Tristeza Virus in Florida, Paul A. Norman and Theodore J. Grant, U. S. Horticultural Station, Orlando	89

VEGETABLE SECTION

A Preliminary Report on the Use of Nutritional Sprays Containing N, P and K in Tomato Production, N. C. Hayslip and W. T. Forsee, Jr., Florida Agricultural Experiment Stations, Everglades Experiment Station, Indian River Field Laboratory, Ft. Pierce	92
Some Factors Affecting the Yield of Broccoli on Scranton Fine Sand in Florida, Gray Singleton, J. William Horsey Corp., Plant City	97

Cantaloupes in Florida, B. F. Whitner, Jr., D. G. A. Kelbert, James Montelaro, George Swank, Jr., and John W. Wilson, Florida Agricultural Experiment Stations, Sanford, Bradenton and Gainesville	100
Recent Developments in the Control of the Major Diseases of Unstaked Tomatoes Grown on the Sandy Soils of South Florida, J. F. Darby, Florida Agricultural Experiment Stations, Indian River Field Laboratory, Ft. Pierce	103
Performance of New Tomato Types in the Gulf Coast Area, David A. G. Kelbert and James M. Walter, Gulf Coast Experiment Station, Bradenton	107
Florida Ninety Strawberry After one Year in Commercial Production, A. N. Brooks, Florida Agricultural Experiment Stations, Strawberry Laboratory, Lakeland	109
Return of Nematodes following Fumigation of Florida Soils, V. G. Perry, U. S. Department of Agriculture, Sanford	112
Plant Response to Aluminum Sulfate, Benjamin Wolf, Dr. Wolf's Agricultural Laboratories, Hollywood, Florida	114
Characteristics and Occurrence of Certain Nematodes in Florida Soils, Joseph M. Good, Jr., Agricultural Experiment Station, Gainesville.	117
Factors Associated with Crease-Stem of Tomato, Ernest L. Spencer, Gulf Coast Experiment Station, Bradenton	121
Prevention of Skinning of Potatoes, C. B. Hall, Florida Agricultural Experiment Station, Gainesville	124
What Can the Florida Vegetable Industry Accomplish with a Marketing Agreement? Marshall R. Godwin, University of Florida, Gainesville	126
Vegetable Trade in the Caribbean Area, Cecil N. Smith, Florida Agricultural Experiment Station, Gainesville	130
Formation of Plowsole Pans in Florida Soils, Gaylord M. Volk, Agricultural Experiment Station, Gainesville	138
Effect of 2,4-D on Four Sweet Corn Hybrids at Different Stages of Growth, V. L. Guzman and E. A. Wolf, Everglades Experiment Station, Belle Glade ...	141
Fertility Requirements of Field Corn Grown on Sandy Soils Following a Fall Crop of Unstaked Tomatoes, W. T. Forsee, Jr., and N. C. Hayslip, Everglades Experiment Station, Belle Glade, and Indian River Field Laboratory, Ft. Pierce	148
The Training of Retail Store Produce Handlers in Handling Vegetables, Stanley E. Rosenberger, Florida Agricultural Extension Service, Gainesville	153
Field Control of Blackheart of Celery, Carroll M. Geraldson, Gulf Coast Experiment Station, Bradenton	155
Some Manganese-Iron Relationships in Tomato Fruits Grown on Marl, Peat and Sand Soils, John G. A. Fiskell, W. T. Forsee, Jr., and J. L. Malcolm, Florida Agricultural Experiment Stations, Gainesville, Belle Glade, Homestead	159
Retarding Effect of Some Insecticides on Cabbage Seedlings, T. M. Dobrovsky, Potato Investigations Laboratory, Hastings	166

Fungicides for the Control of Early Blight on Celery, George Swank, Jr., Central Florida Experiment Station, Sanford	168
The Effect of Copper on Nitrification in Some Florida Soils, Charles F. Eno, Agricultural Experiment Station, Gainesville	172
Fruit and Vegetable Marketing in Europe, F. S. Jamison, Florida Agricultural Experiment Station, Gainesville	177

KROME MEMORIAL SECTION

Chelates for the Correction of Iron Chlorosis in Subtropical Plants, John L. Malcolm, Sub-Tropical Experiment Station, Homestead	179
Belair Groves, Sanford, Pioneer in Sub-Tropical Horticultural Introductions, Philip J. Westgate and R. Bruce Ledin, Florida Agricultural Experiment Stations, Sanford and Homestead	184
A Progress Report on Research in Tropical and Sub-Tropical Fruit at the Government Experiment Station, Nassau, Bahamas, Oris S. Russel, Department of Agriculture and Marine Products, Nassau, Bahamas	187
Horticultural Development of Florida Blueberries, Ralph H. Sharpe, Agricultural Experiment Station, Gainesville	188
Two New Fruits for South Florida, Geo. D. Ruehle, Sub-Tropical Experiment Station, Homestead	190
Sub-Tropical Fruits in Central Florida, R. E. Norris, Lake County Agricultural Agent, Tavares	193
Sub-Tropical Fruit Industry in Egypt, Ahmed Labib El-Tomi, Ibrahim University, Cairo, Egypt	195
High Humidity Treatment for Air Layers of Lychee, Roy Nelson, University of Miami, Coral Gables	198
Notes on Fruiting of <i>Strophanthus Sarmentosus</i> in South Florida, M. J. Dijkman and M. B. Azoff, University of Miami, Coral Gables	200
Review of Investigations on the Annona Species, John C. Noonan, Sub-Tropical Experiment Station, Homestead	205
The Incredible Lychee Comes of Age -- Florida Lychee Growers Association, Arthur M. Hill, Jr., Vero Beach	211
<i>Solanum Hyporhodium</i> or Cocona, J. J. Ochse, University of Miami, Coral Gables ..	211
Observations of Floral Biology and Fruitsetting in Lychee Varieties, Margaret J. Mustard and Roy O. Nelson, University of Miami, Coral Gables, Florida, and Su-Ying Liu, University of Michigan, Ann Arbor, Michigan	212
Rooting Guava (<i>Psidium Guajava</i> , c. <i>Supreme</i>) Stem Cuttings in a Hydroponic Mist-Type Plant Propagator, Joel Kuperberg, Miami	220
Some Effects of Nitrogen, Phosphorus and Potassium Fertilization on the Constituents of Persian Lime Fruits, S. John Lynch, Seymour Goldweber and Clarence Rich, University of Miami, Coral Gables	224

Fertilizer, Irrigation Studies on Avocados and Limes on the Rockdale Soils of the Homestead Area, M. H. Gallatin, U. S. Department of Agriculture, Sub-Tropical Experiment Station, Homestead	228
The Geographic and Native Plant Name Approach to World-Wide Economic Plant Distribution and Exchange, G. Weidman Groff, Lingnan Plant Exchange, Laurel	230

PROCESSING SECTION

Microbiological Examination of Jaffa Oranges with Styler End Spot, E. C. Hill, Florida Citrus Experiment Station, Lake Alfred	240
Frozen Temple Orange Concentrate, R. W. Olsen, R. L. Huggart, and C. D. Atkins, Florida Agricultural Experiment Station, Lake Alfred	243
The Results of Research on Citrus Processing Waste Disposal, J. W. Wakefield, Florida State Board of Health, Jacksonville	246
Notes on Factors Associated with Gelation in Frozen Concentrated Orange Juice, C. W. Huskins and T. J. Kew, U. S. Citrus Products Station, Winter Haven	254
Lime Oil as a Factor in Deterioration of Flavor of Lime Juice, George B. Macfie, Jr., University of Miami, Coral Gables	258
Wines from Tropical Fruits, George B. Macfie, Jr., University of Miami, Coral Gables	263
Maturity Changes in Pineapple Oranges and Their Effect on Processed Frozen Concentrate, A. H. Rouse and C. D. Atkins, Florida Citrus Experiment Station, Lake Alfred	268
A Citrus Plant Eliminates Waste, Harold Marston, Clinton Foods, Inc., Dunedin ...	273
Sweet Potato Canning in Florida, Robert A. Nanz, Florida Chemists and Engineers, Inc., Orlando	276
Some Observations of Gum-Forming Organisms Found on Fruit Surfaces, D. I. Murdock, J. F. Folinazzo, and C. H. Brokaw, Minute Maid Corp., Plymouth	278
Effect of Concentration of Orange Juice and Temperature of Storage on Growth and Survival of Microorganisms, N. B. Rushing, R. Patrick, and M. K. Veldhuis, U. S. Citrus Products Station, Winter Haven	281
Citrus Ice Cream, W. A. Krienke, Florida Agricultural Experiment Station, Gainesville	287
The Effect of Different Methods of Juice Extraction on the Pectic Content of Valencia Orange Juice, C. D. Atkins and A. H. Rouse, Florida Citrus Experiment Station, Lake Alfred	289
Exploratory Studies of Preschool Children's Taste Discrimination and Preference for Selected Citrus Juices, Richard L. D. Morse, Florida State University, Tallahassee	292

ORNAMENTAL SECTION

Notes on Some Ectoparasitic Nematodes Found Attacking Lawns in the Tampa Bay Area, E. G. Kelsheimer and Amegda J. Overman, Gulf Coast Experiment Station, Bradenton	301
Bulb, Tubers, and Rhizomes for Central Florida, Gerald B. Knight, Apopka	303
Studies on Leaf Scorch of Gladiolus, S. S. Woltz, R. O. Magie, and C. M. Geraldson, Gulf Coast Experiment Station, Bradenton	306
The Imported Fire Ant in Florida, G. W. Dekle, State Plant Board, Gainesville....	310
Granular Insecticides, E. G. Kelsheimer, Gulf Coast Experiment Station, Bradenton	311
New Hybrid Crotons, James F. Griffin, Jr., Florida Nurserymen & Growers Association, Key Biscayne	314
Gladiolus Corm Treatments in the Control of Fusarium Rot, Robert O. Magie, Gulf Coast Experiment Station, Bradenton	318
Use of Demeton (Systox) for Controlling Insects of Ornamentals, L. C. Kuitert, Florida Agricultural Experiment Station, Gainesville	321
Some Shrubs for the Landscape in North Florida, G. H. Blackmon, Agricultural Experiment Station, Gainesville	324
Cultivation of the Genus Alocasia in Florida, J. B. Reark, Tropical Landscape Co., Coconut Grove	326
Growing Tulips in Northern Florida, R. D. Dickey, Florida Agricultural Experiment Station, Gainesville	331

ANNUAL REPORTS

Report of Executive Committee	334
General Business Meeting	334
Resolutions	334
Report of Treasurer	335
Report of Florida Agricultural Council Committee	336
Necrology	338
