

*Proceedings*  
of the  
FLORIDA STATE  
*Horticultural Society*  
1954

VOLUME LXVII

PRINTED 1955

## CONTENTS

Officers for 1954 .....	IV
Officers for 1955 .....	V
Constitution and By-Laws .....	VI
List of Members .....	IX
President's Annual Address, M. U. Mounts, West Palm Beach .....	1
New Horizons in Agricultural Meteorology, James M. Beall, Agricultural Meteorologist, U. S. Weather Bureau, Washington, D. C. ....	4
One Hundred Years of Professional Entomology – The Contributions the Profession Has Made to Agriculture, John W. Wilson, Central Florida Experiment Station, Sanford .....	8
Control of Plant Growth and Development by Light, Dr. Harry A. Borthwick, Horti- cultural Crops Research Branch, U. S. Department of Agriculture, Belts- ville, Md. ....	11
Foreign Plant Quarantines, Ed L. Ayers, Plant Commissioner, State Plant Board of Florida, Gainesville .....	15

## CITRUS SECTION

Grove Hedging Studies on Citrus, D. S. Prosser, Florida Citrus Experiment Station, Lake Alfred .....	18
Effect of Method of Timing Nitrogen Fertilization on Yield and Quality of Oranges, Walter Reuther and Paul F. Smith, U. S. Horticultural Station, Orlando .....	20
Behavior of Various Citrus Rootstock-Scion Combinations Following Inoculation with Mild and Severe Strains of Tristeza Virus, A. S. Costa, Instituto Agronomico Campinas, Brazil; Theodore J. Grant, U. S. Horticultural Station, Orlando, Florida; and Sylvio Moreira, Instituto Agronomico Campinas, Brazil .....	26

XVIII FLORIDA STATE HORTICULTURAL SOCIETY, 1954

Root Distribution in Relation to the Water Table, Harry W. Ford, Florida Citrus Experiment Station, Lake Alfred ..... 30

Survey of Iron Deficiency in Florida Citrus, J. Richard Kuykendall, Florida Citrus Experiment Station, Lake Alfred ..... 33

The Effect of Lead Arsenate Sprays on Quality and Maturity of Ruby Red Grapefruit, E. J. Deszyk and J. W. Sites, Florida Citrus Experiment Station, Lake Alfred ..... 38

New Miticides for the Citrus Red Mite (Purple Mite), Herbert Spencer and Allen G. Selhime, U. S. Horticultural Station, Orlando ..... 42

Studies on the Use of Malathion on Citrus, Roger B. Johnson and W. L. Thompson, Florida Citrus Experiment Station, Lake Alfred ..... 44

The Status of the Purple Mite and Its Control, W. L. Thompson, R. B. Johnson and J. W. Sites, Florida Citrus Experiment Station, Lake Alfred ..... 50

Controlling Preharvest Drop of Pineapple Oranges with 2,4,5-Trichlorophenoxypropionic Acid, John W. Sites, Florida Citrus Experiment Station, Lake Alfred ..... 56

Availability of Phosphorus, Potassium and Magnesium from Insoluble Sources as Indicated by the Growth and Leaf Analysis of Sweet Orange Seedlings, I. W. Wander, Florida Citrus Experiment Station, Lake Alfred ..... 60

A Chlorosis of Citrus Produced by Biuret as an Impurity in Urea, M. F. Oberbacher, Florida Citrus Experiment Station, Lake Alfred ..... 67

Boron Deficiency in Florida Citrus Groves, Paul F. Smith, U. S. Horticultural Station, Orlando ..... 69

SYMPOSIUM ON "SPREADING DECLINE" OF CITRUS

Introduction, A. F. Camp, Florida Citrus Experiment Station, Lake Alfred ..... 74

Cause and Nature of Spreading Decline of Citrus, E. P. DuCharme, Florida Citrus Experiment Station, Lake Alfred ..... 75

Host Range of the Burrowing Nematode Internationally and in Florida, Troy L. Brooks, Florida Citrus Experiment Station, Lake Alfred ..... 81

Distribution of the Burrowing Nematode, *Radopholus Similis*, in Florida, K. E. Bragdon and R. W. Hanks, State Plant Board of Florida, Lake Alfred ..... 83

The Experimental Basis and Limitations of the Pull-and-Treat Method of Handling Spreading Decline, R. F. Suit, Florida Citrus Experiment Station, Lake Alfred ..... 85

Practical Aspects and Costs of the Pull-and-Treat Method, Morton Howell, Waverly Citrus Growers Cooperative, Waverly ..... 89

Resistant Rootstock Studies Using the Temperature Tank for Screening, R. F. Suit, Florida Citrus Experiment Station, Lake Alfred ..... 90

Field Experimental Work with Rootstocks and Its Limitations, Harry W. Ford, Florida Citrus Experiment Station, Lake Alfred ..... 91

Research on Non-Phytotoxic Soil Treatments, R. F. Suit, Florida Citrus Experiment Station, Lake Alfred ..... 92

Investigations with Systemic Treatments, Harry W. Ford, Florida Citrus Experiment Station, Lake Alfred ..... 94

The Hot Water Treatment of Nematode-Infested Nursery Stock, Wray Birchfield, State Plant Board of Florida, Lake Alfred ..... 94

VEGETABLE SECTION

Mechanical Harvesting and Bulk Handling of Potatoes, R. E. L. Greene and J. S. Norton, Florida Agricultural Experiment Station, Gainesville ..... 97

Viruses of Vegetable Crops and Miscellaneous Plants in Florida, C. W. Anderson, Florida Agricultural Experiment Station, Gainesville .....	102
An Evaluation of Streptomycin Sprays for Bacterial Spot Control in Commercial Tomato Plantbeds, Robert A. Conover, Sub-Tropical Experiment Station, Homestead .....	105
Practical Experience with Herbicides, Arthur L. Neff, Sarasota .....	107
The 1953 Outbreak of Black Rot at Ruskin, M. C. Jorgensen, Assistant County Agent, Ruskin, and J. M. Walter, Gulf Coast Experiment Station, Bradenton .....	109
Some Crop Abnormalities Associated with Weather Conditions, William P. Hunter, The Kilgore Seed Co., Plant City .....	111
Production of Irish Potatoes on Marl Soils of South Florida, J. Abney Cox, Princeton .....	115
Outlook for Growing and Marketing Vine-Ripened Tomatoes in Florida, D. G. A. Kelbert, Gulf Coast Experiment Station, Bradenton .....	117
Problems of Securing Quality Produce for Retail, K. H. Shelnut, Publix Super Markets, Inc., Lakeland .....	120
Will Recommended Insecticidal Practices Result in Toxic Residues in the Soil?, A. J. Overman, E. L. Spencer, and E. G. Kelsheimer, Gulf Coast Experiment Station, Bradenton .....	121
Chemical Analysis as a Tool in Determining Nutritional Factors Affecting Tomato Quality, C. M. Geraldson, E. L. Spencer, Gulf Coast Experiment Station, Bradenton, and M. C. Jorgensen, Assistant County Agent, Ruskin .....	123
Several Years' Comparisons of "Good" Tomato Fungicides, Robert A. Conover, Sub-Tropical Experiment Station, Homestead .....	127
Fungicidal Spray Trials for the Control of Watermelon Leaf Spots, James M. Crall, Watermelon and Grape Investigations Laboratory, Leesburg .....	130
Field and Greenhouse Observations Under Which Vascular Browning (Gray Wall) of Tomatoes Occurs, R. A. Dennison and C. B. Hall, Agricultural Experiment Station, Gainesville .....	133
Suggestions for an Improved Advisory Service on Florida Vegetables and Some Benefits Which Should Be Derived from Them, J. B. Owens, U. S. Department of Agriculture, Agricultural Marketing Service, Orlando .....	134
The Crosswise Method of Loading Long Watermelons Reduces Transit-Connected Damage, J. R. Winston, P. L. Breakiron, J. Kaufman, U. S. Department of Agriculture, Agricultural Marketing Service, Orlando .....	137
Retail Produce Merchandising Program to Feature and Sell Large Volumes of a Commodity During Production Peaks, Stanley E. Rosenberger, Florida Agricultural Extension Service, Gainesville .....	140
Turning and Mature-Green Yields of Several Tomato Varieties from Staked and Unstaked Plants, L. H. Halsey and F. S. Jamison, Florida Agricultural Experiment Station, Gainesville .....	142
Minor Element Availability in Everglades Peat from the Lake Apopka Area, John G. G. A. Fiskel, Florida Agricultural Experiment Station, Gainesville .....	145
Market Demand and New Crops, F. S. Jamison, University of Florida, Gainesville .....	149
Radish Production in Florida, George M. Talbott, Agricultural Field Representative, Florida Fruit and Vegetable Association, Orlando .....	151

XX FLORIDA STATE HORTICULTURAL SOCIETY, 1954

The Value of Organic Nitrogen in Vegetable Fertilizers, Gaylord M. Volk, Florida Agricultural Experiment Station, Gainesville .....	153
Pole Bean Breeding in Florida, Albert P. Lorz, Florida Agricultural Experiment Station, Gainesville, and James M. Walter, Gulf Coast Experiment Station, Bradenton .....	157
Blackheart of Celery and Its Relationship to Soil Fertility and Plant Composition, P. J. Westgate, W. G. Blue, Central Florida Experiment Station, Sanford, and C. F. Eno, Florida Agricultural Experiment Station, Gainesville .....	158
Damage to Congo Watermelon and Quality at the Shipping Point, R. K. Showalter, Florida Agricultural Experiment Station, Gainesville .....	163

PROCESSING SECTION

Effect of Carbon Dioxide and Certain Other Chemicals on the Keeping Quality of Single Strength and Concentrated Orange Juice, Donald A. Morgan, N. B. Rushing, and W. H. Miller, U. S. Citrus Products Station, Winter Haven .....	166
Quality Factors in Frozen Florida Orange Concentrate, Arthur R. Pobjecky, Southern Fruit Distributors, Inc., Orlando .....	171
Extracting Citrus Juices, R. D. Gerwe, Food Machinery and Chemical Corporation, Lakeland .....	173
The Determination of Internal Quality of Citrus Fruit Received at Processing Plants, Geo. F. Westbrook and E. C. Stenstrom, Citrus and Vegetable Inspection Division, Winter Haven .....	177
Plate Type Heat Exchanger as a Source of Bacterial Contamination in Processing Frozen Concentrated Orange Juice, D. I. Murdock, C. H. Brokaw, and W. E. Allen, Minute Maid Corp., Plymouth .....	179
Aluminum Foil — Its Uses and Potential Uses in the Citrus Industry, Edward Graham Battle, Reynolds Metals Company, Tampa .....	183
Consumer Preferences for Canned Orange Juices of 12 to 22 Brix-Acid Ratios, Richard L. D. Morse, Florida State University, Tallahassee .....	186
The Industrial Uses of D-Limonene, H. E. Schulz, Florida Molasses Corp., Lake Alfred .....	193
Effectiveness of Sorbic Acid as a Preservative for Tangerine Sherbet Base, Roger Patrick and C. D. Atkins, Florida Citrus Experiment Station, Lake Alfred .....	194
Studies on the Freezing of Strawberries in Florida, Maurice W. Hoover and R. A. Dennison, Florida Agricultural Experiment Station, Gainesville .....	197
Recovery of Citrus Glucosides, R. Hendrickson and J. W. Kesterson, Florida Citrus Experiment Station, Lake Alfred .....	199
Lemon and Lime Pectinesterase and Pectin, A. H. Rouse and C. D. Atkins, Florida Citrus Experiment Station, Lake Alfred .....	203
Is There a Place for Lemons in Florida? A Panel Discussion, Harry W. Ford, Moderator, Florida Citrus Experiment Station, Lake Alfred .....	206
Measurement and Control of Color in Orange Concentrate, R. L. Huggart and F. W. Wenzel, Florida Citrus Experiment Station, Lake Alfred .....	210

KROME MEMORIAL SECTION

Study on Root Development, J. J. Ochse and W. J. Iwaniec, University of Miami, Coral Gables .....	217
Preliminary Report on Crotalaria versus Nematodes, J. J. Ochse and William S. Brewton, University of Miami, Coral Gables .....	218
Marcotting of Persian Limes, Norman E. Sutton, Kendall Grove Management, Inc., Goulds .....	219
Some Effects of Nitrogen, Phosphorus and Potassium on the Yield, Tree Growth, and Leaf Analysis of Avocados, S. John Lynch, Seymour Goldweber, and Clarence E. Rich, Experimental Farm, Division of Research and Industry, University of Miami, Coral Gables .....	220
Oleocellosis or Rind-Oil Spot on Persian Limes, Margaret J. Mustard, Experimental Farm, Division of Research and Industry, University of Miami, Coral Gables .....	224
Some Lychee Insects of Florida, G. W. Dekle, State Plant Board of Florida, Gainesville .....	226
Propagation of Guavas by Graftage, Roy O. Nelson, Experimental Farm, Division of Research and Industry, University of Miami, Coral Gables .....	228
Notes on Lychee Grafting, Roy O. Nelson, Experimental Farm, Division of Research and Industry, University of Miami, Coral Gables .....	231
History of Horticulture in Dade County, Charles H. Steffani, Dade County Agricultural Agent, Miami .....	233
Tropical Pomology as a Hobby, William Francis Whitman, Miami Beach .....	236
Mango Breeding, T. W. Young and R. Bruce Ledin, Sub-Tropical Experiment Station, Homestead .....	241
Peach Variety Tests, R. H. Sharpe, T. E. Webb, and H. W. Lundy, Florida Agricultural Experiment Station, Gainesville .....	245
Chemical and Physical Tests of Avocado Maturity, Roy W. Harkness, Sub-Tropical Experiment Station, Homestead .....	248
Studies on the West Indian Cherry, <i>Malpighia Punicifolia</i> L.; Observation and Data on a Promising Selection, F. Arostegui, C. F. Asenjo, Ana I. Muniz, and L. Alemany, Agricultural Experiment Station and School of Medicine, University of Puerto Rico, Rio Piedras .....	250
Tropical Fruits in Ice Cream, Walter A. Krienke, Florida Agricultural Experiment Station, Gainesville .....	256
Macadamias for Florida, Seymour Goldweber, Experimental Farm, Division of Research and Industry, University of Miami, Coral Gables .....	257
The Cape Gooseberry and the Mexican Husk Tomato, Julia F. Morton, Co-Director, Morton Collectanea, University of Miami, Coral Gables, and Oris S. Russell, Director of Agriculture, Nassau, Bahamas .....	261
Horticultural Portraits by Photography, John C. Noonan, Sub-Tropical Experiment Station, Homestead .....	266
The Federal Avocado Marketing Agreement, Wm. H. Krome, Homestead .....	268
New Practices in Growing Pineapples, Scott U. Stambaugh, Miami .....	271
Arabica Coffee with <i>Leucaena Glauca</i> for the Keys, J. J. Ochse, University of Miami, Coral Gables .....	275
Relation of Maturity to Quality in Florida Avocados, Paul L. Harding, Agricultural Marketing Service, U. S. Department of Agriculture, Orlando .....	276

XXII FLORIDA STATE HORTICULTURAL SOCIETY, 1954

Parasitic Nematodes on Avocados – A Preliminary Report, T. W. Young and Geo. D. Ruehle, Sub-Tropical Experiment Station, Homestead ..... 280  
 Mango Varieties, R. Bruce Ledin, Sub-Tropical Experiment Station, Homestead ..... 284  
 The Guava Fruit Moth, *Argyresthia Eugeniella* Busck, D. O. Wolfenbarger, Sub-Tropical Experiment Station, Homestead ..... 290

ORNAMENTAL SECTION

Salt Tolerant Plants Grown in South Australia, T. R. N. Lothian, Director, Botanic Garden, Adelaide, South Australia ..... 293  
 Nematodes Infesting Certain Bulbs, Corms, and Tubers, E. G. Kelsheimer, Gulf Coast Experiment Station, Bradenton ..... 297  
 A Florida Rose Garden, Mrs. G. F. Lampkin, American Rose Society Consulting Rosarian, Bradenton ..... 300  
 Chrysanthemum Industry in Florida, Stanley Smith, Stuart ..... 302  
 Recent Advances in the Storage of Cut Flowers, Thomas J. Sheehan, Florida Agricultural Experiment Station, Gainesville ..... 304  
 Adaptability of Florida Fruit Trees to Landscape Use, Jasper L. Joiner, Florida Agricultural Extension Service, Gainesville ..... 308  
 Commercial Production of Crops in Hydroponics, Raleigh J. Brown, Jr., Horticulturist, Florida Christian College, Temple Terrace ..... 311  
 Stromatinia Disease of Gladiolus, Robert O. Magie, Gulf Coast Experiment Station, Bradenton ..... 313  
 Value and Limitations of Soil Testing to the Grower of Ornamentals, Ernest L. Spencer and S. S. Woltz, Gulf Coast Experiment Station, Bradenton ..... 317  
 Observations on Turf Grasses, John E. Schabinger, Golf Course Superintendent, Florida East Coast Hotel Company, Palm Beach ..... 321  
 Culture of Vandaceous Orchids in Florida, M. D. Reed, Jr., Orchid Ranch, Inc., Miami ..... 324  
 A Review of Some Outstanding Problems of Florida's Ornamental Industry, E. W. McElwee, Florida Agricultural Extension Service, Gainesville ..... 326  
 Sod-Based Rotations for Bulb and Flower Crop Land, Clark B. Blickensderfer, U. S. Soil Conservation Service, Sarasota ..... 327  
 Studies on the Nutritional Requirements of Gladiolus, S. S. Woltz, Gulf Coast Experiment Station, Bradenton ..... 330  
 The How, When, and Why of Watering, Gerald I. Stout, University of Florida, College of Agriculture, Gainesville ..... 335  
 Florida Cut Flower Trends, Ed. H. Price, Jr., Florida Gladiolus Growers Association, Bradenton ..... 336  
 Snapdragon Culture in Florida, Orris R. Evers, Evers Flower Farm, Lakeland ..... 339

ANNUAL REPORTS

Report of Executive Committee ..... 344  
 General Business Meeting ..... 344  
 Resolutions ..... 344  
 Report of Treasurer ..... 345  
 Report of Florida Agricultural Council Committee ..... 346  
 Necrology ..... 348
