VOLUME LXXII

PRINTED 1960

CONTENTS

Officers for 1959.....	IV
Officers for 1960.....	V
Constitution and By-Laws.....	VI
Awards for Outstanding Papers.....	VIII
President's Annual Address, S. John Lynch, Osprey.....	1

CITRUS SECTION

Budwood Importation—Its Dangers and its Benefits, L. C. Knorr, Florida Citrus Experiment Station, Lake Alfred.....	4
Effects of Nitrogen and Potassium Fertilization on Yield and Fruit Quality of Valencia Oranges on Calcareous Soils, Herman J. Reitz and Robert C. J. Koo, Florida Citrus Experiment Station, Lake Alfred.....	12
Current Studies on the Efficiency of Equipment for the Application of Pesticides to Citrus Trees in Florida, J. R. King, P. J. Jutras and W. L. Thompson, Florida Citrus Experiment Station, Lake Alfred.....	16
Chemical Control of Perennial Grasses in Citrus Groves, Dale W. Kretchman, Florida Citrus Experiment Station, Lake Alfred.....	21
Leaf Drop Following Spray Applications on Citrus, W. L. Thompson, Florida Citrus Experiment Station, Lake Alfred.....	29
Effects of Lead Arsenate Sprays on Deadwood, Yield, Fruit Size, and Drop of Marsh Grapefruit, E. J. Deszyck and S. V. Ting, Florida Citrus Experiment Station, Lake Alfred.....	34
Soil Application of Manganese for Citrus, C. D. Leonard and Ivan Stewart, Florida Citrus Experiment Station, Lake Alfred.....	38

Present Status of Heat Treatment of Citrus Viruses, Theodore J. Grant, J. Walter Jones, U. S. D. A. Agricultural Research Service, Orlando, and Gerald C. Norman, Florida State Plant Board, Winter Haven.....	45
The Use of Nucellar Seedlings in Citrus, T. Ralph Robinson, Terra Ceia.....	48
Robinson, Osceola and Lee, New Early-Maturing Tangerine Hybrids, Philip C. Reece and Frank E. Gardner, U. S. D. A. Agricultural Research Service, Orlando.....	49
The Use of Tedion Against Citrus Red Mite and Texas Citrus Mite, Roger B. Johnson, Florida Citrus Experiment Station, Lake Alfred.....	51
Greasy Spot in Florida — Its Control and Apparent Cause, Mortimer Cohen, Florida Citrus Experiment Station, Lake Alfred.....	56
Cold Hardiness in Citrus as Related to Dormancy, William C. Cooper, U. S. D. A. Agricultural Research Service, Orlando.....	61
Breeding Citrus for Cold Hardiness, J. R. Furr and W. W. Armstrong, Jr., U. S. D. A. Agricultural Research Service, Indio, California.....	66
Pot Studies on the Effect of Superphosphates on the Growth of Citrus Seedlings, G. K. Rasmussen and P. F. Smith, U. S. D. A., Agricultural Research Service, Orlando.....	71
Additional Observations on Florida Citrus Following the 1957-58 Freezes, Jack T. McCown, Florida Agricultural Extension Service, Gainesville.....	75
Relative Wilting of Citrus Trees on Various Rootstocks, George E. Horanic and F. E. Gardner, U. S. D. A., Agricultural Research Service, Orlando.....	77
Some Considerations Regarding Setting Distances, Zach Savage, Florida Agricultural Experiment Station, Gainesville.....	79
Keeping Quality of Marsh Grapefruit After Nitrogen and Potash Fertilization, Paul L. Davis and Paul L. Harding, U. S. D. A., Agricultural Marketing Service, Orlando.....	83
Field Trials on the Long-Term Effect of Single Applications of Copper, Zinc, and Manganese on Florida Sandy Citrus Soil, Paul F. Smith and Gordon K. Rasmussen, U. S. D. A., Agricultural Research Service, Orlando.....	87
The Importance and Early History of the Temple Orange, Paul L. Harding, U. S. D. A., Agricultural Marketing Service, Orlando.....	93
Promising Rootstocks that Tolerate the Burrowing Nematode, H. W. Ford, Florida Citrus Experiment Station, Lake Alfred, W. A. Feder and P. C. Hutchins, U. S. Horticultural Field Station, Orlando.....	96
Relation of Citrus Nursery Tree Size from ½ to ¾ inches to Ultimate Size and Production, F. B. Gardner and G. E. Horanic, U. S. D. A., Agricultural Research Service, Orlando.....	102
Some Effects of Day Length and Temperature on Cold Hardiness of Citrus, G. S. Nijjar and John W. Sites, University of Florida, Gainesville.....	106

## VEGETABLE SECTION

Virus Disease Resistance in Peppers, A. A. Cook, Florida Agricultural Experiment Station, Gainesville.....	110
--	-----

Vapam and VPM Soil Fumigant Must be Applied Properly to be Effective, Donald S. Burgis and A. J. Overman, Gulf Coast Experiment Station, Bradenton.....	112
Post-Harvest Treatment of Strawberries and Radishes With Cobalt-60 Irradiation, B. D. Thompson, Florida Agricultural Experiment Station, Gainesville.....	114
A Comparison of Quick Tests on Florida Soils, Herman L. Breland, Florida Agricultural Experiment Station, Gainesville.....	123
Watermelon Spacing and Fertilization, L. H. Halsey, Florida Agricultural Experiment Station, Gainesville.....	131
Factors Affecting Secondary Spread of Nonpersistent Aphid-borne Viruses, John N. Simons, Everglades Experiment Station, Belle Glade.....	136
Comparison of an Air Carrier Sprayer and a Boom Type Sprayer for Control of Early Blight on Celery, D. S. Harrison, Agricultural Extension Service, Gainesville, and P. L. Thayer, Everglades Experiment Station, Belle Glade.....	139
Compositional and Organoleptical Differences Between Celery Grown in Florida and California, C. B. Hall, Florida Agricultural Experiment Station, Gainesville.....	142
Effects of Spacing Between Rows and Between Plants on Growth and Yield of Three Celery Varieties, Howard W. Burdine and V. L. Guzman, Everglades Experiment Station, Belle Glade.....	145
Contamination of the Tomato Variety Manalucie During Its First Five Years, Robert E. Stall, Indian River Field Laboratory, Ft. Pierce, and James M. Walter, Gulf Coast Experiment Station, Bradenton.....	151
Mechanization and Quality in Harvesting Florida Vegetables, L. H. Halsey, Florida Agricultural Experiment Station, Gainesville.....	153
Effects of Combining Hydrocarbon Insecticides With Parathion or Diazinon for Leaf Miner Control on Tomatoes, R. M. Baranowski, Sub-Tropical Experiment Station, Homestead.....	155
Preliminary Work With Systemic Insecticides on Tomatoes, R. M. Baranowski, Sub-Tropical Experiment Station, Homestead.....	158
A Microbial Pathogen for the Control of Certain Cabbage and Cauliflower Insects, E. G. Kelsheimer, Gulf Coast Experiment Station, Bradenton.....	160
Ecological and Cultural Factors Affecting Chemical Control of Subterranean Cutworms in the Everglades, William G. Genung, Everglades Experiment Station, Belle Glade.....	163
Phosphatic Insecticides and Parathion-Toxaphene Combinations for the Control of the Green Peach Aphid and the Serpentine Leaf Miner on Potatoes, Emmett D. Harris, Jr., Everglades Experiment Station, Belle Glade.....	167
Some Aspects of Seasonal Distribution of Rainfall in Florida, Keith Butson, U. S. Weather Bureau, Gainesville.....	171
Head Formation of Cabbage as Affected by Exposure to Low Temperature, D. G. A. Kelbert, Gulf Coast Experiment Station, Bradenton.....	177
Response of Strawberries to Mulching With Plastic, B. D. Thompson, Florida Agricultural Experiment Station, Gainesville.....	179
Maintaining the Genetic Stability of Vegetable Varieties, Gilbert W. Scott, Associated Seed Growers, Inc., New Haven, Conn.....	185

Herbicides for Tomatoes and Pole Beans, D. S. Burgis, Gulf Coast Experiment Station, Bradenton.....	190
Chemical Control of Weeds in Potato Fields, E. N. McCubbin, Potato Investigations Laboratory, Hastings.....	194
Mechanical Aids and Equipment For Harvesting Vegetables in Florida, E. S. Holmes, Florida Agricultural Experiment Station, Gainesville.....	197
Verticillium Wilt of Tomato in Dade County, Florida, Robert A. Conover, Sub-Tropical Experiment Station, Homestead.....	199
Factors Affecting Specific Gravity of Potatoes, Donald L. Myhre, Potato Investigations Laboratory, Hastings.....	202
Use of Combinations of Maneb and Dyrene for Control of Tomato Diseases, Robert A. Conover, Sub-Tropical Experiment Station, Homestead, and Robert E. Stall, Indian River Field Laboratory, Ft. Pierce.....	204
Inheritance of Radial Fruit Cracking in a Tomato Cross, H. W. Young, North Florida Experiment Station, Quincy.....	207
Sevin: A Promising New Insecticide for Controlling Vegetable Insects, L. C. Kuitert, Florida Agricultural Experiment Station, Gainesville.....	211
The Neutron Method of Measuring the Moisture Content of Florida Soils, L. C. Hammond, Florida Agricultural Experiment Station, Gainesville.....	214
The Production and Future of Hybrid Vegetables, J. R. Wall, U. S. D. A. Southeastern Vegetable Breeding Laboratory, Charleston, S. C.....	217

## PROCESSING SECTION

Comparison of Characteristics in Commercial Aqueous Extracts of Orange Pulp Produced from Midseason and Late Season Fruit:	
I. Introduction and Some Characteristics in Aqueous Extracts of Orange Pulp, R. L. Huggart, R. W. Olsen, F. W. Wenzel, R. W. Barron and G. H. Ezell, Florida Citrus Experiment Station, Lake Alfred.....	221
II. Pectic Substances and Related Characteristics in Aqueous Extracts of Orange Pulp, A. H. Rouse, C. D. Atkins and E. L. Moore, Florida Citrus Experiment Station, Lake Alfred.....	227
III. Microbiological Characteristics in Aqueous Extracts of Orange Pulp, E. H. Hill and Roger Patrick, Florida Citrus Experiment Station, Lake Alfred....	233 ✓
IV. The use of Aqueous Extracts of Orange Pulp in the Production of Frozen Orange Concentrate, F. W. Wenzel, Florida Citrus Experiment Station, Lake Alfred.....	235
Comparison of Some Characteristics of Commercial Frozen Concentrated Orange Juices Prepared by Florida Processors During Five Citrus Seasons, C. D. Atkins, A. H. Rouse, E. L. Moore and F. W. Wenzel, Florida Citrus Experiment Station, Lake Alfred.....	239
Simulated Packing, Shipping and Marketing Experiments with Valencia Oranges, W. Grierson, F. W. Hayward, and W. F. Oberbacher, Florida Citrus Experiment Station, Lake Alfred.....	248
Pack-out as Affecting Profits of Citrus Packinghouses with Particular Reference to Fruit Color, W. Grierson and M. F. Oberbacher, Florida Citrus Experiment Station, Lake Alfred.....	254

Hesperidin in Orange Juice and Peel – Extracts Determined by U. V. Absorption, R. Hendrickson, J. W. Kesterson and G. J. Edwards, Florida Citrus Experiment Station, Lake Alfred.....	258
Some Recent Work on Citrus Sections, Gray Singleton, Salada Shirriff Horsey, Inc., Plant City.....	263
Should Oranges For Concentrate be Initially Washed Before or After Storage Bins? D. I. Murdock and Charles H. Brokaw, Quality Control Department, Minute Maid Corporation, Orlando, and J. F. Folinazzo, Continental Can Co., Inc., Chicago, Illinois.....	267
The Taste of Citrus Juice— 2. Citrate Salts and pH, R. W. Kilburn and T. T. Davis, Florida Citrus Cannery Cooperative, Lake Wales.....	271
Measurement of Color Changes in Green Beans, A. L. Shewfelt and R. A. Dennison, Department of Food Technology and Nutrition, University of Florida, Gainesville.....	276
Prevention of the Butt Discoloration of Pre-Packaged Celery, C. B. Hall, Florida Agricultural Experiment Station, Gainesville.....	280
Observations on Celery Flavors, C. B. Hall, Florida Agricultural Experiment Station, Gainesville.....	284
Materials Balances in the Concentration of Orange Juice, W. C. Scott and D. A. Morgan, U. S. D. A. Agricultural Research Service, U. S. Fruit and Vegetable Products Laboratory, Winter Haven.....	285
A Study of the Degrees Brix and Brix-Acid Ratios of Tangerines Utilized by Florida Citrus Processors for the Seasons 1953-54 Through 1956-57 and 1958-59, G. F. Westbrook and E. C. Stenstrom, Florida Department of Agriculture, Winter Haven.....	290
Dependable Vegetable Supplies for Canning in Florida, Jesse M. Huffington, Continental Can Co., Baltimore 13, Md.....	298

KROME SECTION

Training Available in Florida in Tropical and Subtropical Horticulture, H. S. Wolfe, University of Florida, Gainesville.....	301
The Case for Topworking Avocados to Standard Varieties, William H. Krome, Homestead.....	303
Principles Applicable for Spraying Subtropical Fruit Plants, D. O. Wolfenbarger, Sub-Tropical Experiment Station, Homestead.....	305
Breeding Blueberries for the Florida Climate, R. H. Sharpe, University of Florida, and G. M. Darrow, U. S. D. A., (retired) Gainesville.....	308
Boron Deficiency and Alternate Bearing in Avocados, Roy W. Harkness, Sub-Tropical Experiment Station, Homestead.....	311
Effect of Placement of Fertilizer and Lime on Pecan Seedlings, W. K. Robertson, Nathan Gammon, Jr., and G. C. Horn, Agricultural Experiment Station, Gainesville.....	317
Conditions Affecting Commercial Mango Production in Martin County, David Sturrock, Sturrock Tropical Fruit Nursery, West Palm Beach.....	320
Florida and the Macadamia Nut, Ken Woodburn, Florida State Board of Conservation, Marine Laboratory, St. Petersburg.....	323

Notes on Lychee Panicle Development, Margaret J. Mustard and S. John Lynch, Division of Research and Industry, University of Miami, Coral Gables.....	324
Chromosome Relations in Blackberries, J. S. Shoemaker and T. T. Sturrock, Florida Agricultural Experiment Station, Gainesville.....	327
Rare Fruit Council Activities 1958-59 — William Francis Whitman, and Mrs. Otto L. Churney, Rare Fruit Council, Miami.....	330
Chilling Injury in Pollock Avocados During Cold Storage, Carl W. Campbell and Thurman T. Hatton, Jr., U. S. D. A. Agricultural Marketing Service, Miami.....	337
Effects of Certain Plant Growth Regulators upon Cold Hardiness of Lychees, M. H. Gaskins, Crops Research Division, Agricultural Research Service, U. S. Department of Agriculture, Miami.....	339
Investigation on Growth Substances in Peach Buds, R. H. Biggs, Florida Agricultural Experiment Station, Gainesville.....	341
The Effects of Differential Levels of Nitrogen, Potassium and Magnesium on the Growth of Lychees, Jasper N. Joiner, University of Florida, Gainesville.....	346
Evaluation of Indices for Florida Avocado Maturity, Thurman T. Hatton, Jr., and Carl W. Campbell, U. S. D. A. Agricultural Marketing Service, Miami.....	349
Observations on Lychees Grown in Pot Culture, Seymour Goldweber, Perrine.....	353
Storage Behavior of Fresh Brewster and Bengal Lychees, Carl W. Campbell, U. S. D. A., Miami.....	356
The Juice Content of Tahiti Limes Produced on Various Rootstocks, Francis B. Lincoln, Sub-Tropical Experiment Station, Homestead.....	361

#### ORNAMENTAL SECTION

Pre and Post-emergence Herbicides for Gladiolus, D. S. Burgis, Gulf Coast Experiment Station, Bradenton.....	362
Plastic Films for Temporary Greenhouses in Florida, E. W. McElwee and T. J. Sheehan, Florida Agricultural Experiment Station, Gainesville.....	364
Vegetative Propagation of <i>Feijoa sellowiana</i> and <i>Rhodomyrtus tomentosa</i> as Affected by Various Combinations of 3-Indolebutyric Acid, Arginine, Sucrose and Thiamine, John B. Taylor and Jasper N. Joiner, University of Florida, Gainesville.....	366
Effect of Various Pots and Rooting Methods on the Growth of <i>Philodendron oxycardium</i> and <i>Peperomia floridiana aurea</i> , Jake T. Gruis and Jasper N. Joiner, University of Florida, Gainesville.....	369
Nitrogen and Light Intensity Requirements of Some Commercially Grown Foliage Plants, James L. Taylor, Jasper N. Joiner and Ralph D. Dickey, Florida Agricultural Experiment Station, Gainesville.....	373
Rooting and Bud Growth Responses of <i>Philodendron oxycardium</i> to Various Levels of 3-Indolebutyric Acid, Naphthaleneacetic Acid and Sucrose, Jasper N. Joiner and Ronald E. Wentzel, University of Florida, Gainesville.....	375
Effect of Timing of Nitrogen, Phosphorus and Potassium Applications on Growth and Flowering of Pot-Grown <i>Chrysanthemum morifolium</i> , Variety Humdinger, Jasper N. Joiner and J. L. Taylor, University of Florida, Gainesville.....	378

The Comber Soil Acidity Test for Soluble Iron in Azalea Soils, Seton N. Edson and John V. Watkins, University of Florida, Gainesville.....	380
Symptoms of Nutritional Disorders of Chrysanthemums and Gladiolus, S. S. Woltz, Gulf Coast Experiment Station, Bradenton.....	383
Control of Leaf and Flower Diseases of Florist's Chrysanthemums, Lorne A. McFadden, Sub-Tropical Experiment Station, Homestead.....	385
The Effects of Gamma Radiation on Chrysanthemum and Gladiolus. T. I. Sheehan and Y. Sagawa, University of Florida, Gainesville.....	388
Bacterial Blight of Poinsettia, Lorne A. McFadden, Sub-Tropical Experiment Station, Homestead.....	392
Effectiveness of a New Insecticide for Scale Insect Control, L. C. Kuitert, Florida Agricultural Experiment Station, Gainesville.....	395
Chlorotic Ringspot of Vanda Orchid Caused by Cymbidium Mosaic Virus, M. K. Corbett, Florida Agricultural Experiment Station, Gainesville.....	398
Nematode Control on Ornamental Plants with Soil Fumigants, H. N. Miller, Florida Agricultural Experiment Station, Gainesville.....	403
Chemical Studies on the Roots and Leaves of Coconut Palms Affected by Lethal Yellowing, John G. A. Fiskell, Florida Agricultural Experiment Station, and A. P. Martinez and L. G. Van Weerd, State Plant Board of Florida, Gainesville.....	408
Production of Tree Roses on <i>Rosa fortuneana</i> Stock, S. E. McFadden, Jr., Dept. Ornamental Horticulture, University of Florida, Gainesville.....	413
Inoculation Studies With <i>Corynebacterium Poinsettiae</i> , Don B. Creager, State Plant Board of Florida, Gainesville.....	417
Results of a Survey Designed to Determine the Etiology of "Lethal Yellowing" of <i>Cocos Nucifera</i> L., L. G. van Weerd, A. P. Martinez and R. P. Esser, State Plant Board of Florida, Gainesville.....	421
The Effects of Varying levels of Nitrogen and Potassium on Growth and Yield of <i>Chrysanthemum morifolium</i> , Variety "Bluechip", T. C. Smith and J. N. Joiner, University of Florida, Gainesville.....	430
Effects of Kinds of Pots and Frequencies of Watering on Snapdragons, Petunias and Calendulas from Seedling Stage to Maturity, Jasper N. Joiner, University of Florida, Gainesville.....	434
Control of Geotropic Bending in Snapdragon and Gladiolus Inflorescences, Howard J. Teas, Thomas J. Sheehan and Theodore W. Holmsen, Florida Agricultural Experiment Station, Gainesville.....	437

ANNUAL REPORTS

Necrology .....	443
Report of Executive Committee .....	445
General Business Meeting .....	445
Resolutions .....	445
Report of Treasurer .....	446
List of Members.....	447
Index .....
