

Proceedings
of the
FLORIDA STATE
Horticultural Society
1971

VOLUME LXXXIV

PRINTED MAY 15, 1972

CONTENTS

Officers for 1971	IV
Officers for 1972	V
Constitution and By-Laws	VI
Awards of the Society	XVII
Awards for Outstanding Papers	XVII
List of Presidents	XVIII
Honorary Members	XIX
President's Annual Address, O. R. Minton, Ft. Pierce	XXI
Preserving the Environment Includes the People in it, Tom Adams, Lt. Governor of Florida	XXII

CITRUS SECTION

A Comparison of 'Murcott' and 'Valencia' Trees Grown on Four Different Stocks in Nutrient Solutions with Three Potassium Levels, Paul F. Smith	1
Effects of Soil pH and Calcium on Yields and Fruit Quality of Young 'Valencia' Oranges, Carl A. Anderson	4
The Effects of Omitting Single Nutrient Elements from Fertilizer on Growth and Per- formance of 'Pineapple' Orange, R. C. J. Koo and R. L. Reese	11
Uptake and Distribution of Iron in Citrus, Fouad M. Basiouny and R. H. Biggs	17
Field Tests with New Iron Chelates on Citrus Growing on Calcareous Soils, C. D. Leonard and D. V. Calvert	24
Sweet Lime, Its Performance and Potential as a Rootstock in Florida, A. H. Krezdom and W. S. Castle	32
Problems Encountered in Overhead Irrigation of Citrus with Water of Relatively Low Salinity, Ernest C. Lundberg	38

The Milkweed Vine—Current Recommendations and Promising New Approaches, D. P. H. Tucker, R. L. Phillips and J. L. Jackson, Jr.	41
Field Testing Airblast Sprayers for Florida Citrus, R. F. Brooks and J. D. Whitney ...	44
Tree Loss in Relation to Young Tree Decline and Sand Hill Decline of Citrus in Florida, E. P. DuCharme	48
A Comparison of Three Methods of Applying Methyl Bromide for <i>Phytophthora</i> Control in Small Plots, G. R. Grimm and Ann F. Alexander	52
Effectiveness of Spray Materials Against Citrus Greasy Spot in Relation to Time of Application and Infection Periods, J. O. Whiteside	56
Decontamination Treatments to Reduce the Spread of Citrus Exocortis Virus (CEV) by Contaminated Tools, S. M. Garnsey and R. Whidden	63
Field Testing of Cycloheximide for Abscission of Oranges Grown in the Indian River Area, W. C. Wilson	67
Abscission Chemicals in Relation to the Harvest of 'Valencia' Oranges, W. C. Cooper and W. C. Wilson	70
Seasonal Variation in Bonding Force and Abscission of Citrus Fruit in Response to Ethylene, Ethephon, and Cycloheximide, M. A. Ismail	77
Observations on Early and Midseason Orange Abscission Demonstrations Using Cycloheximide, W. F. Wardowski and W. C. Wilson	81
Harvesting 'Valencia' Oranges with a Limb Shaker, G. E. Coppock	84
Comparative Harvest Trials of Foliage and Limb Shakers in 'Valencia' Oranges, S. L. Hedden and G. E. Coppock	88
The Effect of Precipitation on Maturity Parameters of Florida Citrus, Robert D. Carter, Bela S. Buslig and John A. Attaway	92

VEGETABLE SECTION

Evaluation of Watermelon Cultivars for Commercial Production in Florida, G. W. Elmstrom	96
Vegetable Seedling Uniformity Studies, V. F. Nettles	99
The Wax Gourd, A Year-Round Florida Vegetable with Unusual Keeping Quality, Julia F. Morton	104
Single Harvest Yields of Several Tomato Cultivars in Relation to Seed Size, L. H. Halsey	110
Simulation of Sand Penetration of Tomatoes, Richard C. Fluck	112
Studies on the Causal Agent of Black Fungal Lesions on Stored Tomato Fruit, J. A. Bartz	117
Effects of an Organic Hydrolysate Containing α -Keto Acids on Tomato Yields, H. H. Bryan and P. E. Read	120
Evaluation of Paper and Polyethylene-Coated Paper Mulches and Fertilizer Rates for Tomatoes, Paul H. Everett	124
Influence of Population Density, Row Arrangement and Fertilizer Rate on the Single-Harvest Yield of Fresh-Market Tomatoes, A. A. Navarro and S. J. Locascio ...	129

Effect of Varied Iron, Manganese and Zinc Nutrition on the <i>in vitro</i> Growth of Race 2 <i>Fusarium oxysporum</i> F. Sp. <i>Lycopersici</i> and Upon the Wilting of Tomato Cuttings Held in Filtrates from Cultures of the Fungus, S. S. Woltz and John Paul Jones	132
Effect of Off-Season Culture on Weeds, Nematodes, and Potato Yields on Marl Soils, A. J. Overman, H. H. Bryan and R. W. Harkness	135
Pathogenicity and Control of a Florida Population of the Sugarbeet Nematode, <i>Heterodera schachtii</i> , on Cabbage, H. L. Rhoades	139
Cabbage Looper Injury to Different Cabbage Cultivars, R. B. Workman and J. R. Shumaker	142
Cabbage Looper Control on Watermelon at Leesburg, 1968-1970, W. C. Adlerz	145
Top Regrowth Inhibition of Topped Film-Packaged Radishes by Growth Retardants and Mechanical Means, V. L. Guzman	147
Relative Susceptibility of Selected Strawberry Clones and Cultivars to Spider Mite Injury, S. L. Poe and C. M. Howard	152
Influence of Plant Density on Strawberry Fruit Production, E. E. Albrechts	156
Strawberry Yield and Soil Nutrient Levels as Influenced by Plant Population, Fertilizer Rate and Bed Shape, S. J. Locascio	160
Association of <i>Pseudomonas marginalis</i> with Pink Rib of Lettuce, C. B. Hall, R. E. Stall, and H. W. Burdine	163
Virus Diseases Affecting Lettuce and Endive in Florida, D. E. Purcifull and T. A. Zitter	165
Vegetable Virus Problems in South Florida as Related to Weed Science, J. R. Orsenigo and T. A. Zitter	168
Gray Leafspot of Pepper, C. H. Blazquez	171
Virus Diseases of Pepper in South Florida, T. A. Zitter	177
Herbicide Tests on Pepper Transplants and Seeded Peppers, D. S. Burgis	183

HANDLING AND PROCESSING SECTION

Quantitative Analysis of Persian Lime Oil, Philip E. Shaw, Richard L. Coleman, and Manuel G. Moshonas	187
Yield of Peel Oil in Lemons as Related to Budwood and Rootstocks, R. W. Drescher, R. A. Dennison and J. W. Kesterson	190
Storage Stability of Foam-Mat Instant Orange Juice as Related to pH, Robert E. Berry, Charles J. Wagner, Jr. and Owen W. Bissett	193
Enzymatic Treatment of Orange Juice to Increase Cloud and Yield, and Decrease Sinking Pulp Level, Robert A. Baker and Joseph H. Bruemmer	197
Some New Analytical Indicators of Processed Orange Juice Quality, John A. Attaway and Robert D. Carter	200
Effects of the Test House Extractor Modifications Upon the Yield of Orange Juice in Commercial Practices, J. T. Griffiths	206

Further Studies of Ethanol and Acetaldehyde in Juice of Citrus Fruits During the Growing Season and During Storage, Paul L. Davis	217
Orange Essence Evaluation: A New Chemical Test, R. J. Braddock and D. R. Petrus	223
The Brabender Visco-Corder for Rheological Evaluation of FCOJ and High Density Citrus Concentrates, R. L. Huggart, A. H. Rouse and E. L. Moore	226
Effect of Arsenation of Fruit on the Quality of Canned Grapefruit Sections, F. W. Wenzel, R. W. Olsen, A. H. Rouse, E. L. Moore, R. L. Huggart, R. W. Barron and C. D. Atkins	230
Short Term Screening for Acidity Reduction, Bela S. Buslig, Robert D. Carter and George E. Good	236
Folic Acid—An Essential Vitamin Present in Citrus Fruit, E. C. Hill, J. A. Attaway and Richard R. Streiff	238
Microwave Processing of Citrus Salad Gels in Plastic Containers, A. H. Rouse and E. L. Moore	241
Prepared Grapefruit Halves with Thiabendazole: Decay Control and Residue Analysis, W. F. Wardowski and F. W. Hayward	244
Processing Evaluation of Florida Blueberries, F. W. Knapp.	247
Taste Panel Responses to Flavor of Heated Mango Puree, R. H. Dougherty	250
Lactic Fermentation of Florida Vegetables, R. P. Bates and R. F. Matthews	253
Measurement of Breakage Properties of Snap Bean Pods, R. K. Showalter.	257
Heating of Citrus Fruits During Degreening and Associated Temperature Gradients Within the Typical Horizontal Airflow Degreening Room, Douglas L. Deason and W. Grierson	259
Effects of Ethylene and Temperature on Carotenoid Pigmentation of Citrus Peel, Ivan Stewart and T. A. Wheaton	264
Microbiological Study of a Lemon Packinghouse Operation, D. I. Murdock	266
Effect of Ethylene Degreening on Decay of Florida Citrus Fruit, A. A. McCornack	270
A Colorimetric Method for the Determination of Residues of Thiabendazole in Citrus Fruits, F. W. Hayward and A. A. McCornack	272

KROME MEMORIAL INSTITUTE

Introduction to Symposium on Avocados, Limes, and Mango, Roy O. Nelson	275
Tree Spacing Trends, Wm. H. Krome	276
Avocado Variety Evaluation, 1971, Wm. H. Krome	277
Irrigation of Tropical and Subtropical Fruit Groves in Dade County, Florida, Seymour Goldweber and Burt E. Colburn	278
Current Hedging and Topping Practices for Avocados and Limes in Florida, Phil W. Newman.....	281
Production and Marketing of Avocados and Limes, Dade County Style, N. P. Brooks	283

Weed Control in Lime, Avocado and Mango Groves, R. W. Harkness and Conrad Byrd	285
Fungicides for Disease Control on Avocados, Limes and Mangos in Florida, R. T. McMillan, Jr.	290
Postharvest Rind Disorders of 'Persian' Limes, W. Grierson, W. F. Wardowski and G. J. Edwards	294
Variations in Mineral Content of Florida Mango Leaves, T. W. Young and R. C. J. Koo	298
The Federal-State Inspection Service and Its Role in the Florida Avocado and Lime Industries, Gordon W. Brown	303
Certified Lime Clone Status—Growers' View, Burt Colburn and Seymour Goldweber	305
Mango Production and Marketing Practices—Florida, 1971, E. F. Mitchell	307
Mango and Avocado: Emerging Fruits in World Horticulture and Trade, Simon E. Malo	311
Mango and Avocado Evaluation in Southeastern Florida, R. J. Knight, Jr. and H. F. Winters	314
Updating of Changes in Pests, Pesticides, and Other Factors Affecting Subtropical Insect Pest Control, D. O. Wolfenbarger	318
Commercial Production of Minor Tropical Fruit Crops in Florida, Carl W. Campbell	320
The Olosapo, the Sun Sapote and the Fijian Longan, Wm. F. Whitman	323
Prediction of Hourly Temperatures on Cold Nights for Inland Dade County, Florida, P. G. Orth and J. T. Bradley	326
The University of Florida's Expanding Programs in Tropical Horticulture (Fruit), A. H. Krezdorn	330
Weed Control with Preemergence Herbicides in a Mature Vineyard, C. F. Balerdi	333
Response of Maygold Peaches to Various Rates and Application Dates of Alar, J. B. Aitken	335
Subtropical Apples, W. B. Sherman, R. H. Sharpe and J. B. Aitken	337
Progress of the Nectarine, R. H. Sharpe and J. B. Aitken	338
Pecans in Central and South Florida, C. E. Arnold	345

ORNAMENTAL SECTION

Fusarium Wilt of Chrysanthemum: Symptomatology and Cultivar Reactions, Arthur W. Englehard and S. S. Woltz	351
Cylindrocladium Leaf Spot of <i>Magnolia grandiflora</i> in Florida, S. A. Alfieri, Jr. and A. E. Graham	354
Susceptibility of Azalea Varieties to <i>Calonectria theae</i> and <i>Cylindrocladium scoparium</i> , E. K. Sobers and G. L. Crane	357
Evaluations of Easter Lily and Hybrid Lily Cultivars for Commercial Flower Production in Florida, G. J. Wilfret and J. C. Raulston	359
Propagation and Morphology of the False Aralia, Margaret J. Mustard and S. John Lynch	363

Natural Selection of Ornamental Trees for Safety Protection Along Florida Highways, James K. Dunaway	367
Survival of Ornamental Plants on Lignumvitae Key, John Popenoe and George Avery	368
Physiological Disorders of Leaves of Chrysanthemum Cultivars Relative to Accumulation of Excess Carbohydrate, S. S. Woltz and Arthur W. Engelhard	370
Effect of Fluoride and a Floral Preservative on Quality of Cut Gladiolas, F. J. Marousky and S. S. Woltz	375
Influence of Fluoride on Foliar Necrosis of <i>Cordyline terminalis</i> cv Baby Doll During Propagation, Charles A. Conover and Richard T. Poole	380
Gladiolus Production Costs and Returns in Southwest Florida, T. S. Hipp	384
Shoot-Tip Culture of Gladiolus: An Evaluation of Nutrient Media for Callus Tissue Development, G. J. Wilfret	389
Effects of Manual and Chemical Pruning Methods on Growth of Forcing Azaleas, Charles A. Conover and Jasper N. Joiner	394
Bud-Cut Flowers—A Concept for 'Once-Over Harvest' of Chrysanthemums, F. J. Marousky and J. Nanney	399
Production of Cut-Flowers on Subirrigated Mulched Beds with a Single Pre-Plant Fertilizer Application, J. C. Raulston and C. M. Geraldson	403
Effect of Some Microelements on Growth and Quality of Container Grown <i>Viburnum suspensum</i> Lindl, R. D. Dickey	408
Flowering of Christmas Cactus as Influenced by Nyctoperiod Regimes, R. T. Poole	410
Response of Chrysanthemum Cultivars to the Nematicide, Mocap, A. J. Overman and J. C. Raulston	413
Suppression of Aphids, Mites, and Nematodes with Foliar Applications of Chemicals, A. J. Overman and S. L. Poe	419
The Evaluation of Bactericides and Bactericide Combinations for the Control of Bac- terial Leaf Spot and Tip Burn of <i>Philodendron oxycardium</i> Incited by <i>Xantho- monas diffebachiae</i> , J. F. Knauss, W. E. Waters and R. T. Poole	423
The Phytotoxicity of Seventeen Miticides Applied as Repeated Weekly Sprays Under Slat Shed Conditions to Five Foliage Plant Species, J. F. Knauss	428
Control of Aphids and Mites on Cut Chrysanthemums by Post Harvest Absorption of Azodrin and Demeton, S. L. Poe and F. J. Marousky	432
Combinations of Fungicides and Insecticides for Control of Disease, Insects and Mites on Chrysanthemums, Arthur W. Engelhard and S. L. Poe	435
Weed Control in Container-Grown Woody Ornamentals, E. W. McElwee, B. A. Barmby and A. L. Harrell	442

ANNUAL REPORTS

Report of Executive Committee	448
Annual Business Meeting	449
Resolutions	449
Report of Membership Committee	450
Report of Treasurer	451
List of Members	452
Index	467
Available Proceedings	479
